Beginning Entrepreneur:

The Young Entrepreneur's Guide to Starting and Running a Business Steve Mariotti, 2014-04-29 It doesn't matter how old you are or where you're from you can start a profitable business. *The Young Entrepreneur's Guide to Starting and Running a Business* will show you how. Through stories of young entrepreneurs who have started businesses, this book illustrates how to turn hobbies, skills, and interests into profit-making ventures. Mariotti describes the characteristics of the successful entrepreneur and covers the nuts and bolts of getting a business up, running, and successful. *The Beginning Entrepreneur* John R. Matthews, 1994 Tips on beginning your own business. Start-Up Financing. Where can a fresh entrepreneur start looking for help and financial support? Daniel Keller, 2017-09-19 Research Paper undergraduate from the year 2016 in the subject Business economics. Company formation Business Plans grade 1-7 University of Applied Sciences Rosenheim Wirtschaft course Betriebswirtschaftliches Seminar language English abstract To have a great idea for a Start-up is a very good predisposition for a successful business. Despite this amazing thought, unfortunately, a lot of Start-ups fail at the beginning. According to the statistics, 34% of entrepreneurs are 20-29 years old and 40% are between 30-39 years old once they start their first business. Most of the people in this age are already well educated and they do not have many savings. It makes them look for alternatives which could support the first critical years of their Start-up. At the beginning, no one wants to invest in an unknown business which leaves them with the idea of borrowing money elsewhere. As a matter of fact, no one wants to take a disadvantageous loan, so young entrepreneurs usually ask their family and friends for help, but by taking this kind of money, they are putting the good friendships and relationships at stake. So what are the options? Where can a fresh entrepreneur start looking for help and financial support? The answer should be clearer after reading this paper. The goal we are trying to reach is to give a better overview of the options of financing, the advantages and disadvantages of different methods, and show it on real-life examples. One of the most important things is to be well informed about the possibilities which are available so it may come to the realization of the original idea and building of a successful Start-up. In order to give a better insight on this topic, we will also choose existing Start-ups and analyze what methods they have used, how they were implemented, and what they had to give in return. We will pick not only from the successful ones but also from the less fortunate businesses as it's important to understand the know-how of winners just as important as to know the mistakes of others. Go Start Something Jan Collmer, 2012-02 There are never any shortcuts to success, but it is possible to follow the paths of those who have blazed a trail in their own fields of endeavor. Jan has created great success in the area of entrepreneurship. If you wish to become an entrepreneur, you will find much in the pages of Jan's *Go Start Something* that will guide you to success. However, anyone can benefit from these 18 chapters of experience and learn from the examples Jan describes. I believe the stories of succeeding against great odds, sacrificing personal comfort to put everything into your business, living according to your vision, putting in a full day's work day in and day out, and enjoying your life every moment.

can provide great inspiration One of the most powerful forces in the world is the will of men and women who believe in themselves who dare to hope and aim high who go confidently after the things they want from life Jan went after his dream and accomplished it you can also achieve great success if you follow his Rules for Entrepreneurship Go Start Something PROFESSOR JIM GIBBONS PHD Northwood University **The Start-up Entrepreneur** James R.
