cycles Lavin examines with the aid of computer technology the rearranged chronologies of familiar religious stories found  
therein Like many masterpieces Lavin s book builds upon a simple idea it is possible to do a computer analysis of visual  
narratives This is the first computer based study of the visual arts of which I am aware that illustrates how those  
technologies can utterly transform the study of old master art An extremely important book one likely to become the most  
influential recent study of art of this period The Place of Narrative is also a beautiful artifact David Carrier Leonardo  
Covering over a millennium and dealing with the whole of Italy Lavin makes pioneering use of new methodology employing a  
computer database and novel terminology to describe the disposition of scenes of church and chapel walls We should
