Behind Japans Surrender The Secret Struggle That Ended An Empire:

Behind Japan's Surrender Lester Brooks,1968 [The Heroes We Needed](#) Trevor B McIntyre,2024-10-31 McIntyre recounts the stories of many airmen who did not return which are undeniably touching as are the photographs he includes Because of their size the B 29s were able to drop the atomic bombs that ended the war But it is the human stories that resonate the most A heartfelt account of the men who flew the combat airplane known as the Superfortress Kirkus Reviews During World War II there were many ways that a B 29er could be killed a ruthless enemy an unforgiving ocean that stretched for thousands of miles or the faulty engines of their own airplanes But they all volunteered for it and they continued flying and dying until they brought the war to an early end and saved hundreds of thousands of American lives They were The Heroes We Needed In this riveting saga of sacrifice and salvation Trevor McIntyre brings to life the courageous American airmen who brought the Japanese Empire to its knees and ended World War II with the greatest bombers the world had ever seen the Boeing B 29 Superfortress and his fight 70 years later to save their stories from being forgotten [Emperor Hirohito and the Pacific War](#) Noriko Kawamura,2015-11-02 This reexamination of the controversial role Emperor Hirohito played during the Pacific War gives particular attention to the question If the emperor could not stop Japan from going to war with the Allied Powers in 1941 why was he able to play a crucial role in ending the war in 1945 Drawing on previously unavailable primary sources Noriko Kawamura traces Hirohito s actions from the late 1920s to the end of the war analyzing the role Hirohito played in Japan s expansion Emperor Hirohito emerges as a conflicted man who struggled throughout the war to deal with the undefined powers bestowed upon him as a monarch often juggling the contradictory positions and irreconcilable differences advocated by his subordinates Kawamura shows that he was by no means a pacifist but neither did he favor the reckless wars advocated by Japan s military leaders [World War II in Literature for Youth](#) Patricia Hachten Wee,Robert James Wee,2004-11-10 This comprehensive volume provides a wealth of information with annotated listings of more than 3 500 titles a broad sampling of books on the war years 1939 1945 Includes both fiction and nonfiction works about all aspects of the war Professional resources for educators aligned to the educational standards for social studies technical references periodicals and electronic resources a directory of WWII museums memorials and other institutions and topics for exploration complement this excellent library and classroom resource [Black Gold and Blackmail](#) Rosemary A. Kelanic,2020-05-15 Black Gold and Blackmail seeks to explain why great powers adopt such different strategies to protect their oil access from politically motivated disruptions In extreme cases such as Imperial Japan in 1941 great powers fought wars to grab oil territory in anticipation of a potential embargo by the Allies in other instances such as Germany in the early Nazi period states chose relatively subdued measures like oil alliances or domestic policies to conserve oil What accounts for this variation Fundamentally it is puzzling that great powers fear oil coercion at all because the global market makes oil sanctions very difficult to enforce Rosemary A Kelanic argues that two

variables determine what strategy a great power will adopt the petroleum deficit which measures how much oil the state produces domestically compared to what it needs for its strategic objectives and disruptibility which estimates the susceptibility of a state's oil imports to military interdiction that is blockade Because global markets undercut the effectiveness of oil sanctions blockade is in practice the only true threat to great power oil access That combined with the devastating consequences of oil deprivation to a state's military power explains why states fear oil coercion deeply despite the adaptive functions of the market Together these two variables predict a state's coercive vulnerability which determines how willing the state will be to accept the costs and risks attendant on various potential strategies Only those great powers with large deficits and highly disruptible imports will adopt the most extreme strategy direct control of oil through territorial conquest

Every War Must End Fred Charles Iklé, 2005 Every War Must End analyzes the many critical obstacles to ending a war an aspect of military strategy that is frequently and tragically overlooked Iklé considers a variety of examples from twentieth century history and examines specific strategies that effectively won the peace In the new preface Iklé explains how U S political decisions and military strategy and tactics in Iraq have delayed and indeed jeopardized a successful end to hostilities
