Organizing Words Yiannis Gabriel,2008 Organizing Words presents a series of essays on some 220 widely used and much debated terms in the social sciences and organization studies Each essay explores the meanings and uses of the word and also the controversies they have sparked The book aims to be a first port of call for students researchers and scholars who wish to familiarize themselves with these key ideas and use them in their own work The book is neither an encyclopaedia nor a dictionary but a thesaurus As such it combines both the original meaning of a thesaurus as a treasure trove with its more contemporary characteristics of an accessible and practical resource Primarily aimed at those interested in social and organizational studies it will appeal to all those interested in the human sciences It does not claim to be canonical or all inclusive but each entry seeks to enlighten and help without patronizing or obscuring disagreements and difficulties The book seeks to be reassuring without being complacent or comfortable to be authoritative without being doctrinaire and to be critical without being destructive Words help us express ourselves and make sense of our experiences and our actions and they help us to organize ourselves our thoughts and our universe Organizing Words will be an invaluable resource for essay writing and a useful tool in planning and carrying out projects and dissertations Most of the entries have been written by Yiannis Gabriel with 40 essays coming from other experts in particular areas

Counting Religion in Britain, 1970-2020 Clive D. Field,2021-12-09 Counting Religion in Britain 1970 2020 the fourth volume in the author's chronological history of British secularization sheds significant new light on the nature scale and timing of religious change in Britain during the past half century with particular reference to quantitative sources Adopting a key performance indicators approach twenty one facets of personal religious belonging behaving and believing are examined offering a much wider range of lenses through which the health of religion can be viewed and appraised than most contemporary scholarship Summative analysis of these indicators by means of a secularization dashboard leads to a

reaffirmation of the validity of secularization in its descriptive sense as the dominant narrative and direction of travel since 1970 while acknowledging that it is an incomplete process and without endorsing all aspects of the paradigmatic expression of secularization as a by product of modernization
