Collected Works J.M. Synge, 1966 Between Babasaheb and Mahatma Hulas Singh, 2024-10-16 This book is a critical comparative study of Jotirao Phule and Bhimrao Ramji Ambedkar modern India s two most prominent dalit leaders Although they were not close contemporaries they came to construct a firm structure of not only dalit ideology but also dalit methodology to emancipate the oppressed and depressed sections of society The book deals with their ideas in a new light highlighting aspects of convergence and contrast in their respective approach to philosophy religion society and culture It argues that deep down in his philosophic orientation Phule was quintessentially closer to Gandhi than to Ambedkar The author also contends that the usage of the term dalit exclusively in the caste communitarian sense is essentially a product of post independence political appropriation rather than social evolution The book specifically brings to light the dynamics of humanism and nationalism on the one hand and that of communitarianism on the other in the context of twentieth century colonial India Notably Gandhi is brought in the narrative to complete the triumvirate Comprehensive and deeply grounded in primary research this thought provoking book will be indispensable for students and researchers of modern Indian history sociology political science political thought exclusion studies dalit and subaltern studies and South Asian studies It will also appeal to those interested in the writings of Ambedkar and Phule Volume 16, Tome II: Kierkegaard's Literary Figures and Motifs Katalin Nun, Jon Stewart, 2016-12-05 While Kierkegaard is perhaps known best as a religious thinker and philosopher there is an unmistakable literary element in his writings He often explains complex concepts and ideas by using literary figures and motifs that he could assume his readers would have some familiarity with This dimension of his thought has served to make his writings far more popular than those of other philosophers and theologians but at the same time it has made their interpretation more complex Kierkegaard readers are generally aware of his interest in figures such as Faust or the Wandering Jew but they rarely have a full appreciation of the vast extent of his use of characters from different literary periods and traditions The present volume is dedicated to the treatment of the variety of literary figures and motifs used by Kierkegaard The volume is arranged alphabetically by name with Tome II covering figures and motifs from Gulliver to Zerlina
