**At the Earth's Core** Edgar Rice Burroughs, 2020-06-13T20:18:47Z At the Earth's Core published in 1914 is the first of a series of science fiction novels written by Edgar Rice Burroughs set inside a hollow earth with a central sun a land called Pellucidar However unlikely this scenario it allowed Burroughs free play to create heroic adventures in yet another alien environment in addition to his fantastic version of Mars in his Martian series The story's hero David Innes is recruited by an old man Perry to help fund his invention a mechanical subterranean prospector and then to test it out Unfortunately once the powerful burrowing machine is set going it cannot be steered and the pair find themselves burrowing deeper and deeper into the Earth's crust To their astonishment rather than dying from suffocation or increasing heat they emerge inside a hollow shell inside the Earth This world is populated by prehistoric creatures as well as primitive humans intelligent gorillas and supremely intelligent pterosaurs the masters of this land David and Perry are captured by these creatures and many adventures ensue This book is part of the Standard Ebooks project which produces free public domain ebooks
