Collective Security In Swiss Experience 1291 1948:

Collective Security in Swiss Experience, 1291-1948 William Emmanuel Rappard, 1948 This book is an attempt for the author William E Rappard to recall the most significant events in the constitutional development of his country Although his analysis is strictly historical he has proceeded to his task with the curiosity of one who has closely followed the rise and fall of the League of Nations and the emergence of the United Nations The Swiss cantons formed a very loose confederation bound together only by bilateral and multilateral treaties of collective security After fifty years of constitutional upheaval

Switzerland in 1848 became the federal state that she has been for the last century from book **On Freedom and Free Enterprise: Essays in Honor of Ludwig von Mises** Mary Sennholz, 1956 *Direct Democracy in Switzerland* Gregory A. Fossedal, Only one country in the world Switzerland is a direct democracy in which to an extent the people pass their own laws judge the constitutionality of statutes and even have written in effect their own constitution In this propitious volume Gregory Fossedal reports on the politics and social fabric of what James Bryce has called the nation that has taken the democratic idea to its furthest extent The lessons Fossedal presents at a time of dissatisfaction with the role of money and privileged elites in many Western democracies are at once timely and urgent In *Direct Democracy in Switzerland* Fossedal has developed a shrewd sensitive overview of Switzerland s high notion of statecraft He details the reasons for studying Switzerland s distinctive institutions and explores the origins and development of the ancient Swiss democracy which reaches back a thousand years He shows how Switzerland handles the political questions common to all modern societies such as education taxes crime welfare the Holocaust He concludes with the ongoing debate over two very different visions of democracy direct versus representative Paolo Dardenelli in *Regional and Federal Studies* described the book in its cloth edition as offering many valuable insights into Swiss political life and written in a light refreshing journalistic style Amity Shlaes of the *Financial Times* commented that Fossedal shines a brilliant spotlight on a form of governance with lessons for the rest of us His review of the referendum process there is required reading for lawmakers political consultants and voters Gregory A Fossedal is chairman of the Alexis de Tocqueville Institution a research foundation based near Washington DC He is also president and chief investment officer of the Democratic Century Fund and its management company the Emerging Markets Group He is author of *The Democratic Imperative* Alfred R Berkeley III is president of the Nasdaq stock market

Collective Security and American Foreign Policy Roland N. Stromberg, 1963 **Cinq Siècles de Sécurité Collective.**

Collective Security in Swiss Experience, 1291-1948. An Abridgement. William Emmanuel RAPPARD, 1948 *A Grand Strategy for America* Robert J. Art, 2013-02-15 The United States today is the most powerful nation in the world perhaps even stronger than Rome was during its heyday It is likely to remain the world s preeminent power for at least several decades to come What behavior is appropriate for such a powerful state To answer this question Robert J Art concentrates on grand strategy the deployment of military power in both peace and war to support foreign policy goals He first defines America s

contemporary national interests and the specific threats they face then identifies seven grand strategies that the United States might contemplate examining each in relation to America's interests. The seven are: dominion (forcibly trying to remake the world in America's own image), global collective security (attempting to keep the peace everywhere), regional collective security (confining peacekeeping efforts to Europe), cooperative security (seeking to reduce the occurrence of war by limiting other states' offensive capabilities), isolationism (withdrawing from all military involvement beyond U.S. borders), containment (holding the line against aggressor states), and selective engagement (choosing to prevent or to become involved only in those conflicts that pose a threat to the country's long-term interests). Art makes a strong case for selective engagement as the most desirable strategy for contemporary America. It is the one that seeks to forestall dangers, not simply react to them; that is politically viable at home and abroad; and that protects all U.S. interests, both essential and desirable. Art concludes that selective engagement is not a strategy for all times, but it is the best grand strategy for these times.

The Early Security Confederations Frederick Lister, 1999-12-30. Lister traces the little-known story of how the first confederal-type unions sprang up in ancient Greece and how they were revived in medieval and early modern times, not just in Switzerland and the Dutch Republic but in New England's colonies of the 17th century. Following an introduction in which the nature of confederal-type governance is described, Lister examines the ancient Greek sympolitias, the precursors of full-scale confederations, the Hanseatic League, the old Swiss Confederation, the Dutch Republic, and finally the United Colonies of New England. Each chapter closes with a series of conclusions regarding unions. Lister concludes the book with a summary of the achievements of the early confederations. This detailed synthesis of what is known of the little-studied early confederations will be of primary interest to scholars and students of international relations, military history, and political theory.

From Empire to International Commonwealth Deborah Lavin, 1995. Lionel Curtis, C.H., once counted among the great and the good working behind the scenes of international politics and honoured as the pioneer of a great idea: international federation as the natural successor to empire. He advocated federation as the way to create a new South Africa after the Boer War; he called for self-government in India in 1912; in 1921 he was instrumental in attempting to pacify the Irish Troubles by treating Eire as if it were a self-governing Commonwealth Dominion. He went on to preach the conversion of the Empire Commonwealth into a multinational federation which, in association with the United States, would serve as a model for a united Europe and even for world government. He founded the Round Table think tank, the Royal Institute of International Affairs at Chatham House, and the Oxford Society. He lobbied indefatigably for his vision of the Commonwealth as a new world order to be more effective than the League of Nations in making wars obsolete. In the process, he exasperated

nationalists and imperialists alike as a prophet of apparently lost causes He deserves to be remembered not only for what he achieved but for what he was the bore who never lost a friend the optimist who stuck to his belief when all was lost the third class scholar who became a Fellow of All Souls the visionary riding his hobby horse into the drawing rooms of high political society and yet invited affectionately to return The remarkable character of the man and the influence he exerted on the history of the Empire and Commonwealth are explored in this authoritative biography *The Publishers' Trade List Annual*, 1969 University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Authors & titles University of California (System).
