Kukk-Grønberg,2017-11-09 True Story of Dracula is a horror book It is written as if Dracula had existed So it starts with Vlad III from his early childhood and tries to give him a character one can relate to until the moment he was killed and how he was transformed into Dracula How Dracula was and acted among his fellow humans Not to forget how he managed to stay hidden for all those years As one can see in the personified characteristics I have also built up the character of Dracula giving him a whole lot more depth I have also built on the vampires whom Dracula makes and have given them a lot more of a persona as well I have chosen to give one other character in the book more detail Then we begin with the main plot of the book a class from California traveling to Romania on a research trip As they are to discover it turns from a research trip to a getaway trip Here I have also found it necessary to give each student that goes on the trip a character that goes into depth not only so we can get an understanding of the person but also to assist me in writing An example would be given these characteristics what would most likely happen I have personified each characteristic such as mine where after each book it has hopefully increased the number of characters it goes to depth with It does not only help you think forward but also backward An example would be her mother is interesting she may have had an affair which we can include in a new book The other alternative could be that this character is so rich Maybe we can focus on highlighting them more or perhaps tell his side of the story
