Beginning Philosophy:

How to Misunderstand Kierkegaard Stuart Dalton, 2022-09-27 This book is an attempt to write about Kierkegaard's philosophy in the style of Kierkegaard's philosophy: energetic, playful, free-spirited, surprising, and joyous. It is a deliberately crumbly book in the sense that it seeks out the fragments, scraps, and crumbs of philosophical arguments that are generally ignored or swept away like so much rubbish but that are actually the most interesting parts of the meal. The Anti-Assistant Professor Method that this book follows adopts Kierkegaard's many excellent jokes about assistant professors as a guide to how not to write about Kierkegaard's philosophy: specifically, Don't cease to be human; Don't be a parasite merely feeding off other people's creations and never creating anything new; Don't reduce or simplify or systematize Kierkegaard's ideas in order to make life easier for everyone because that was never the point; Don't kill Kierkegaard's philosophy by lecturing on it, thereby turning it into a collection of dead ideas for nonhumans rather than subjective truths that need to be lived. Following these guidelines, the book attempts to extend and amplify some of Kierkegaard's most important ideas in a way that combats the persistent problem of nihilism, a disease that even Kierkegaard succumbed to at the end of his life.

Hegel, Husserl and the Phenomenology of Historical Worlds Tanja Staehler, 2016-12-07 GWF Hegel famously described philosophy as its own time apprehended in thoughts reflecting a desire that we increasingly experience, namely the desire to understand our complex and fast-changing world. But how can we philosophically describe the world we live in? When Hegel attempted his systematic account of the historical world, he needed to conceive of history as rational progress to allow for such description. After the events of the twentieth century, we are rightfully doubtful about such progress. However, in the twentieth century, another German philosopher, Edmund Husserl, attempted a similar project when he realised that a philosophical account of our human experience requires attending to the historical world we live in. According to Husserl, the Western world is a world in crisis. In this book, Tanja Staehler explores how Husserl thus radicalises Hegel's philosophy by providing an account of historical movement as open. Husserl's phenomenology allows thinking of historical worlds in the plural without hierarchy determined by ethics and aesthetics. Staehler argues that through his radicalization of Hegel's philosophy, Husserl provides us with a historical phenomenology and a coherent concept of a culture that points to the future for phenomenology as a philosophy that provides the methodological grounding for a variety of qualitative approaches in the humanities and social sciences.

Phenomenological Ontology of Breathing Petri Berndtson, 2023-02-28 This book studies the phenomenological ontology of breathing. It investigates breathing and air as a question of phenomenological philosophy and looks at phenomenological questions concerning respiratory methodology, ontological experience of respiration, respiratory spirituality, and respiratory embodiment. Drawing on the ideas of Maurice Merleau-Ponty, Gaston Bachelard, Martin Heidegger, Edmund Husserl, Luce Irigaray, and David Kleinberg Levin, the book argues for the ontological primacy of breathing and develops a new principle of philosophy that the author calls Silence of Breath, Abyss, Yawn of Air. It asserts that breathing is not a thing.

or person oriented relation but perpetual communication with the immense elemental atmosphere of open and free air This new phenomenological method of breathing offers readers a chance to begin to wonder rethink re experience and reimagine all questions of life in an innovative and creative way as aerial and respiratory questions of life Part of the Routledge Critical Perspectives on Breath and Breathing series the book breaks new ground in phenomenology and phenomenological ontology by offering a decisive and insightful treatment of breath It will be indispensable for students and researchers of philosophy phenomenology and ontology It will also be of special interest to Merleau Ponty scholars as it investigates uncharted dimensions of Merleau Ponty s philosophy

The Possible Present Ugo Perone,2011-10-01 The Possible Present unfolds from within a freely reinterpreted hermeneutic perspective and provides an original theoretical proposal on the topic of time In dialogue especially with the philosophies of Husserl and Heidegger but resorting also to suggestions coming from a theological background Barth and Bonhoeffer the work proposes a personal and original theory of time centered on a conception of the present that does not reduce temporality to a succession of mere instants When one claims that time is ungraspable one refers neither to the past which is rather irretrievable nor to the future which is rather uncertain but to the present The present in which we are is in fact what fades from our hands without break The present is a decisive threshold for finite existence It is the threshold where past and future meet and can give birth to a livable horizon of meaning Dilating the present and giving it a meaningful chance to be is a task for philosophy It is the attempt of giving time to time and also giving it shape place and space To succeed at this task while rediscovering the sources of a narrative way of thinking that in truth it has never abandoned philosophy must go back and turn time into the primary object of discourse like in stories which are precisely the attempt at disposing the temporal flow of events according to a meaning Perone argues that in time however what passes is not simply decline but rather something irreducible an exteriority that must be said

Reading

Hegel Slavoj Zizek, Frank Ruda, Agon Hamza,2021-11-30 A spirit is haunting contemporary thought the spirit of Hegel All the powers of academia have entered into a holy alliance to exorcize this spirit Vitalists and Eschatologists Transcendental Pragmatists and Speculative Realists Historical Materialists and even liberal Hegelians Which of these groups has not been denounced as metaphysically Hegelian by its opponents And which has not hurled back the branding reproach of Hegelian metaphysics in its turn Progressives liberals and reactionaries alike receive this condemnation In light of this situation it is high time that true Hegelians should openly admit their allegiance and without obfuscation express the importance and validity of Hegelianism to the contemporary intellectual scene To this end a small group of Hegelians of different nationalities have assembled to sketch the following book a book which addresses a number of pressing issues that a contemporary reading of Hegel allows a new perspective on our relation to the future our relation to nature and our relation to the absolute

Hegel and the Art of Negation Andrew W. Hass,2013-11-12 Why is the philosopher Hegel returning as a potent force in contemporary thinking Why after a long period when Hegel and his dialectics of history have seemed less

compelling than they were for previous generations of philosophers is study of Hegel again becoming important Fashionably contemporary theorists like Francis Fukuyama and Slavoj Zizek as well as radical theologians like Thomas Altizer have all recently been influenced by Hegel the philosopher whose philosophy seems somehow perennial or to borrow an idea from Nietzsche eternally returning Exploring this revival via the notion of negation in Hegelian thought and relating such negativity to sophisticated ideas about art and artistic creation Andrew Hass argues that the notion of Hegelian negation moves us into an expansive territory where art religion and philosophy may all be radically reconceived and broken open into new forms of philosophical expression The implications of such a revived Hegelian philosophy are the author argues vast and current Hegel thereby becomes the philosopher par excellence who can address vital issues in politics economics war and violence leading to a new form of globalised ethics Hass makes a bold and original contribution to religion philosophy and the history of ideas

Kierkegaard's Relations to Hegel Reconsidered Jon Stewart,2007-08-16 Jon Stewart s study is a major re evaluation of the complex relations between the philosophies of Kierkegaard and Hegel The standard view on the subject is that Kierkegaard defined himself as explicitly anti Hegelian indeed that he viewed Hegel s philosophy with disdain Jon Stewart shows convincingly that Kierkegaard s criticism was not of Hegel but of a number of contemporary Danish Hegelians Kierkegaard s own view of Hegel was in fact much more positive to the point where he was directly influenced by some of Hegel s work Any scholar working in the tradition of Continental philosophy will find this an insightful and provocative book with implications for the subsequent history of philosophy in the twentieth century The book will also appeal to scholars in religious studies and the history of ideas

Death, Time and the Other Saitya Brata Das,2020-01-27 This book addresses the limits of metaphysics and the question of the possibility of ethics in this context It is divided into six chapters the first of which broadens readers understanding of difference as difference with specific reference to the works of Hegel The second chapter discusses the works of Emmanuel Levinas and the question of the ethical In turn the concepts of sovereignty and the eternal return are discussed in chapters three and four while chapter five poses the question of literature in a new way The book concludes with chapter six The book represents an important contribution to the field of contemporary philosophical debates on the possibility of ethics beyond all possible metaphysical and political closures As such it will be of interest to scholars and researchers in both the humanities and social sciences Beyond the academic world the book will also appeal to readers journalists intellectuals social activists etc for whom the question of the ethical is the decisive question of our time

The Philosophy Book for Beginners Sharon Kaye,2021-09-07 A truly delightful and wonderfully compact introduction to philosophy s key questions and major thinkers from ancient times to the present day William Irwin general editor of The Blackwell Philosophy and Pop Culture series Who are you What is truly real Is there such a thing as free will If you have ever considered questions like these that s philosophy The Philosophy Book for Beginners breaks down the core concepts of both Eastern and Western philosophy in clear language that explains the most important

people and ideas You ll develop an understanding of the basic ideas and see your understanding of the world expand no dense academic texts required The major branches Explore the central questions of metaphysics epistemology logic and axiology as you see how they changed over time A wide range of thinkers Discover the diverse perspectives of philosophers from Socrates in the fifth century BCE to modern day thinkers like Martha Nussbaum Thought experiments Each chapter focuses on a topic like existentialism stoicism or radical faith and ends with a related thought experiment for you to ponder Gain a solid understanding of philosophy with a book that makes it easy to grasp and relevant to the world today

A Cyclopedia of Education Paul Monroe,1913 *Sanskrit and Its Kindred Literatures* Laura Elizabeth Poor,1880 *The Philosophical Review* Jacob Gould Schurman,James Edwin Creighton,Frank Thilly,Gustavus Watts Cunningham,1907 An international journal of general philosophy Catalogue Indiana University,1885 **Wesleyan University Bulletin** ,1927

Outlines of Logic and Metaphysics Eduard Erdmann,1896 Self-Knowledge Stephen Hetherington,2007-03-19 Self Knowledge introduces philosophical ideas about knowledge and the self The book takes the form of a personal meditation it is one person s attempt to reflect philosophically upon vital aspects of his existence It shows how profound philosophy can swiftly emerge from intense private reflection upon the details of one s life and thus will help the reader take the first steps toward philosophical self understanding Along the way readers will encounter moments of puzzlement then clarity followed by more perplexity and further insights and then finally some philosophical peace of mind The works Lucius Caecilius Firmianus Lactantius,1871 **Beginning Philosophy** Richard Double,1999 An introduction to fundamental philosophical problems This text covers topics such as logic and reasoning the theory of knowledge the nature of the external world the mind body problem normative ethics metaethics free will the existence of God and the problem of evil Some Aspects of the Greek Genius Samuel Henry Butcher,1893 **Ante-Nicene Christian Library: The seven books of Arnobius adversus Gentes (1871)** Alexander Roberts,Sir James Donaldson,1871

Beginning Philosophy Book Review: Unveiling the Magic of Language

In a digital era where connections and knowledge reign supreme, the enchanting power of language has become much more apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is actually remarkable. This extraordinary book, aptly titled "**Beginning Philosophy**," published by a very acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound impact on our existence. Throughout this critique, we shall delve to the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
