## Beijing Spring:

*Chinese Society* Elizabeth J. Perry, Mark Selden, 2010 This bestselling introduction to Chinese society uses the themes of resistance and protest to explore the complexity of life in contemporary China An interdisciplinary and international team of China scholars draw on perspectives from sociology anthropology psychology history and political science and covers a broad range of issues Topics covered include labour and environmental disputes rural and ethnic conflict migration legal challenges intellectual and religious dissidence opposition to family planning The newly revised third edition adds two new chapters on gender and the family and the reform of the Hukou system thus providing a comprehensive text for both undergraduates and specialists in the field encouraging the reader to challenge conventional images of contemporary Chinese society Voices from Tiananmen Square Mok Chiu Yu, J. Frank Harrison, 1990 A book of original documents speeches handbills posters manifestos and interviews Present s the sights and sounds of the cacophony of voices heard during the two month period through the writings and recollections of the demonstrators themselves Ottawa Citizen **The Paradox of China's Post-Mao Reforms** Merle Goldman, Roderick MacFarquhar, 1999 China s bold program of reforms launched in the late 1970s the move to a market economy and the opening to the outside world ended the political chaos and economic stagnation of the Cultural Revolution and sparked China s unprecedented economic boom Yet while the reforms made possible a rising standard of living for the majority of China s population they came at the cost of a weakening central government increasing inequalities and fragmenting society The essays of Barry Naughton Joseph Fewsmith Paul H B Godwin Murray Scot Tanner Lianjiang Li and Kevin J O Brien Tianjian Shi Martin King Whyte Thomas P Bernstein Dorothy J Solinger David S G Goodman Kristen Parris Merle Goldman Elizabeth J Perry and Richard Baum and Alexei Shevchenko analyze the contradictory impact of China s economic reforms on its political system and social structure They explore the changing patterns of the relationship between state and society that may have more profound significance for China than all the revolutionary movements that have convulsed it through most of the twentieth century **Beyond Tiananmen** Robert L. Suettinger, 2004-05-13 It has been thirteen years since soldiers of the Chinese People s Liberation Army PLA raced into the center of Beijing ordered to recover at any cost the city s most important landmark Tiananmen Square from student demonstrators The U S and other Western countries recoiled in disgust after the horrific incident and the relationship between the U S and China went from amity and strategic cooperation to hostility distrust and misunderstanding Time has healed many of the wounds from those terrible days of June 1989 and bilateral strains have been eased in light of the countries joint opposition to international terrorism Yet China and U S remain locked in opposition as strategic thinkers and military planners on both sides plot future conflict scenarios with the other side as principal enemy Polls indicate that most Americans consider China an unfriendly country and anti American sentiment is growing in China According to Robert Suettinger the calamity in Tiananmen Square marked a critical turning point in U S China affairs In *Beyond Tiananmen*

Suettinger traces the turbulent bilateral relationship since that time with a particular focus on the internal political factors that shaped it. Through a series of candid anecdotes and observations Suettinger sheds light on the complex and confused decision making process that affected relations between the U S and China between 1989 and the end of the Clinton presidency in 2000. By illuminating the way domestic political ideas beliefs and prejudices affect foreign policymaking Suettinger reveals policy decisions as outcomes of complex processes rather than the results of grand strategic trends. He also refutes the view that strategic confrontation between the superpowers is inevitable. Suettinger sees considerable opportunity for cooperation and improvement in what is likely to be the single most important bilateral relationship of the twenty first century. He cautions however *Beijing Spring* David C. Turnley, Peter Turnley, Melinda Liu, 1989-01-01.
