

Certainly being governor is an important job,
and there are quality governors that could
serve our country as president and have done
so in the past.

The Buildings of Peter Harrison John Fitzhugh

Millar,2014-10-20 Perhaps the most important architect ever to have worked in America Peter Harrison s renown suffers from the destruction of most of his papers when he died in 1775 He was born in Yorkshire England in 1716 and trained to be an architect as a teenager He also became a ship captain and soon sailed to ports in America where he began designing some of the most iconic buildings of the continent In a clandestine operation he procured the plans for the French Canadian fortress of Louisbourg enabling Massachusetts Governor William Shirley to capture it in 1745 This setback forced the French to halt their operation to capture all of British America and to give up British territory they had captured in India As a result he was rewarded with commissions to design important buildings in Britain and in nearly all British colonies around the world and he became the first person ever to have designed buildings on six continents He designed mostly in a neo Palladian style and invented a way of building wooden structures so as to look like carved stone wooden rustication He also designed some of America s most valuable furniture including inventing the coveted block front and introducing the bombe motif In America he lived in Newport Rhode Island and in New Haven Connecticut where he died at the beginning of the War of Independence
