Belief, Language, and Experience Rodney Needham, 1972-01-01 **Belief, Language and Experience** ,1972

Navigating the Study of Myth, Ritual, and Belief ,2025-11-27 Sarah Iles Johnston has innovated in the study of myth ritual and belief and her scholarship in these areas informs the contributions to this volume each of which uses Johnston to innovate in turn The capacity of Johnston s work to underpin scholarship on phenomena from the ancient Mediterranean to the present day from Isis charms in Christian Egypt to American goddess worship from healing in the Epidaurian iamata to the medicine of Linda Hogan s Indios from the believability of a Syriac ghost story to that of theurgic ritual illustrates Johnston s impact and the vibrant state of work on myth ritual and belief *Religious Experience, Justification, and History* Matthew C. Bagger, 1999-11-13 Many philosophers of religion have sought to defend the rationality of religious belief by shifting the burden of proof onto the critic of religious belief Some have appealed to extraordinary religious experience in making their case *Religious Experience Justification and History* restores neglected explanatory and historical considerations to the debate Through a study of William James it contests the accounts of religious experience offered in recent works Through reflection on the history of philosophy it also unravels the philosophical use of the term justification Matthew Bagger argues that the commitment to supernatural explanations implicit in the religious experiences employed to justify religious belief contradicts the modern ideal of human flourishing For contrast and to demonstrated the indispensability of history he includes a study of Teresa of Avila s mystical theology The controversial supernatural explanations implicit in extraordinary religious experience places the burden of proof on the believer **The Relations between Vietnamese EFL Students' and Teachers' Language Learning Beliefs** Truong Sa Nguyen, 2013-08-19 This book examines the relationships between foreign language learning beliefs and learning preferences of two English language learners and the beliefs and teaching practices of two Native English speaking teachers in the EFL context In such an environment the learners were not satisfied with learning English in their public school they paid a great deal of money to attend a private school and had many expectations regarding the course and the teachers On the other hand the teachers had to satisfy their students without any personal experience in learning English as a foreign language Practically the book will help private schools and other similar contexts to enhance their competitiveness in the market and serve their learners better In addition the book will also help EFL teachers to raise their awareness of the nature and effects of the relationship between teachers and students beliefs Theoretically this book contributes to the current literature on this subject by relating not only learners beliefs and preferences but also teachers beliefs with their on going practices *Rethinking Religious Conversion* Jack Williams, 2024-11-14 Drawing on methods from religious studies philosophy and cognitive science Jack Williams develops a unique and interdisciplinary approach to the study of religious conversion This is the first major philosophical study of conversion to treat the phenomenon as a long term process shaped by the convert s embodiment and immersion in a

linguistic social and ritual community Williams analysis of the conversion process is rooted in a view of cognition as both embodied and affective and is informed by the latest research in phenomenology affect theory neuroscience and enactivist cognitive science In conversation with diverse conversion narratives he advances a theory of conversion that is not restricted to a modern Western context but that can be applied to experiences of conversion across global history and culture

Rethinking Religious Conversion displays an original approach to the philosophical study of diverse religious practices By bringing together a diverse array of contemporary and historical scholarship it revitalizes the study of conversion for both philosophy and religious studies
