## **Benjamin Adorno Zwei Studien:**

*Adorno's Aesthetics of Music* Max Paddison, 1993 This introduction to the aesthetics and sociology of music of the German philosopher and music theorist T W Adorno is the only book to deal comprehensively with this topic and it has quickly established itself as a classic text

**Language and History in Adorno's Notes to Literature** Ulrich Plass, 2013-11-15 Language and History in Theodor W Adorno's Notes to Literature explores Adorno's essays on literature as an independent contribution to his aesthetics with an emphasis on his theory and practice of literary interpretation Essential to Adorno's essays is his unorthodox treatment of language and history and his elaboration of the links between the two One of Adorno's major but often neglected claims is that truth is relative to its historical medium language Adorno persistently and creatively tries to narrow the gulf between truth and expression philosophy and rhetoric and his essays on literature are practical examples of his effort to critically rescue the rhetorical dimension of philosophy Rather than relying exclusively on aesthetic concepts inherited from his predecessors in the Western tradition Kant Hegel Nietzsche Kierkegaard Adorno's essays seek to transgress and transcend the conceptual limitations of aesthetic discourse by appropriating a non conceptual metaphorical vocabulary borrowed from the literary texts he investigates Thus Adorno's interpretations of literature mobilize an alternative subterranean primarily essayistic and fragmentary discourse on language and history that eludes the categories that tend to predominate his thinking in his major work Aesthetic Theory This book puts forth the claim that Adorno's essays on literature are of central relevance for an understanding of his aesthetics because they challenge the conceptual limitations of philosophical discourse

**Posthistoire** Lutz Niethammer, Dirk van Laak, 1994-05-17 Whether its ultimate resting place is deemed to be Fukuyama's liberal democracy or Baudrillard's hyperreality history according to a number of pundits has reached the end of the line In the inflated debates that have ensued it is precisely history which has been ignored for the conception of posthistoire is far from new Here Lutz Niethammer Germany's leading practitioner of history from below explores in fascinating detail the forms the conception has taken in the twentieth century and assembles what amounts to an intellectual history of disillusion and resignation In his survey of thinkers as diverse as Kojève Heidegger and Junger he finds adherents to the idea of the end of history on the Right and Left But whether they pinned all their hopes on the nation or the proletariat in different ways they have all conflated the apparent collapse of a particular historical project with the collapse of history itself

**Toward a Theory of Radical Origin** John David Pizer, 1995-01-01 This provocative book addresses one of the central and most controversial branches of Western thought the philosophy of origin In light of recent poststructuralist principles such as alterity difference and dissemination the philosophy of origin seems to exemplify the repressive reactionary tendencies of much of the Western philosophical tradition John Pizer aims to overturn this recent antipathy to the philosophy of origin He ably summarizes poststructuralist critiques of that earlier philosophical tradition then turns to five German thinkers Nietzsche Benjamin Rosenzweig Heidegger and Adorno who developed philosophies of

origin that effectively anticipate and counter poststructuralist attacks These are thinkers who in one way or another influenced recent generations of poststructuralist thinkers Pizer argues however that rather than do away with the notion of origin altogether as in the works of the most thoroughgoing poststructuralists these philosophers developed theories in which origin is always multiple and plurivalent In the writings of these seminal German thinkers origin becomes origins and authentic origins are inherently plural and divergent A valuable engrossing account of a wide range of thinkers and their complex relations Pizer s book recovers the notion of origin for an intellectual world that has come to value multiplicity openness and diversity

**Haunted narratives** Gabriele Rippl, Philipp Schweighauser, Tiina Kirss, Margit Sutrop, Therese Steffen, 2013-03-14 Exploring life writing from a variety of cultural contexts Haunted Narratives provides new insights into how individuals and communities across time and space deal with traumatic experiences and haunting memories From the perspectives of trauma theory memory studies gender studies literary studies philosophy and post colonial studies the volume stresses the lingering haunting presence of the past in the present The contributors focus on the psychological ethical and representational difficulties involved in narrative negotiations of traumatic memories Haunted Narratives focuses on life writing in the broadest sense of the term biographies and autobiographies that deal with traumatic experiences autobiographically inspired fictions on loss and trauma and limit cases that transcend clear cut distinctions between the factual and the fictional In discussing texts as diverse as Toni Morrison s *Beloved* Vikram Seth s *Two Lives* deportation narratives of Baltic women Christa Wolf s *Kindheitsmuster* Joy Kogawa s *Obasan* and Ene Mihkelson s *Ahasveeruse uni* the contributors add significantly to current debates on life writing trauma and memory the contested notion of cultural trauma and the transferability of clinical psychological notions to the study of literature and culture

*Frankfurt School* J. M. Bernstein, 1994 The Frankfurt School refers to the members associated with the Institut für Sozialforschung Institute for Social Research which was founded in Frankfurt in 1923 The work of this group is generally agreed to have been a landmark in twentieth century social science It is of seminal importance in our understanding of culture progress politics production consumption and method This set of six volumes provides a full picture of the School by examining the important developments that have occurred since the deaths of the original core of Frankfurt scholars All the major figures Adorno Horkheimer Marcuse Benjamin are represented In particular the important post war work of Jürgen Habermas is fully assessed The collection also covers the work of many of the minor figures associated with the School who have been unfairly neglected in the past resulting in the most complete survey and guide to the oeuvre of the Frankfurt School
