Harrison, 2008-04-15 A Companion to Latin Literature gives an authoritative account of Latin literature from its beginnings in the third century BC through to the end of the second century AD Provides expert overview of the main periods of Latin literary history major genres and key themes Covers all the major Latin works of prose and poetry from Ennius to Augustine including Lucretius Cicero Catullus Livy Vergil Seneca and Apuleius Includes invaluable reference material dictionary entries on authors chronological chart of political and literary history and an annotated bibliography Serves as both a discursive literary history and a general reference book **Explorations in Latin Literature: Volume 2, Elegy, Lyric and Other**

Topics Denis Feeney, 2021-08-19 Denis Feeney is one of the most distinguished scholars of Latin literature and Roman culture in the world of the last half century These two volumes conveniently collect and present afresh all his major papers covering a wide range of topics and interests Ancient epic is a major focus followed by Latin lyric historiography and elegy Ancient literary criticism and the technology of the book are recurrent themes Many papers address the problems of literary responses to religion and ritual with an interdisciplinary methodology drawing on comparative anthropology and religion The transition from Republic to Empire and the emergence of the Augustan principate form the background to the majority of the papers and the question of how literary texts are to be read in historical context is addressed throughout All quotations from ancient and modern languages have now been translated and Stephen Hinds has contributed a foreword **Author and**

Habinek, 2001-11-13 This is the first book to

describe the intimate relationship between Latin literature and the politics of ancient Rome Until now most scholars have viewed classical Latin literature as a product of aesthetic concerns Thomas Habinek shows however that literature was also a cultural practice that emerged from and intervened in the political and social struggles at the heart of the Roman world Habinek considers major works by such authors as Cato Cicero Horace Ovid and Seneca He shows that from its beginnings in the late third century b c to its eclipse by Christian literature six hundred years later classical literature served the evolving interests of Roman and more particularly aristocratic power It fostered a prestige dialect for example it appropriated the

cultural resources of dominated and colonized communities and it helped to defuse potentially explosive challenges to prevailing values and authority Literature also drew upon and enhanced other forms of social authority such as patriarchy religious ritual cultural identity and the aristocratic procedure of self scrutiny or existimatio Habinek s analysis of the relationship between language and power in classical Rome breaks from the long Romantic tradition of viewing Roman authors as world weary figures aloof from mundane political concerns a view he shows that usually reflects how scholars have seen themselves The Politics of Latin Literature will stimulate new interest in the historical context of Latin literature and help to integrate classical studies into ongoing debates about the sociology of writing

Collected Papers on Latin Literature R. G. M. Nisbet, 1995 Other papers discuss Virgil s bucolic style symbolism in Seneca s tragedies how poems by Horace and Statius are coloured by the characteristics of their addresses Articles on prose consider the reader s contribution to the understanding of Cicero s speeches and the use of rhythm to determine the punctuation of Latin sentences Many textual conjectures are proposed on familiar Latin authors notably Catullus Horace and Juvenal other papers discuss Housman s Juvenal and how textual conjectures are made
