Scotland D. Ronald Macgregor, Ray Harris, 1975-01-01 *Scottish Geographical Magazine*, 1914 [The History Behind Game of Thrones](#) David C. Weinczok, 2019-02-18 The true history behind the hit HBO fantasy show and George R R Martin's bestselling Fire and Ice series A wall in the distant north cuts the world in two Ruthless sea born warriors raid the coasts from their war galleys A young nobleman and his kin are slaughtered under a banner of truce within a mighty castle A warrior king becomes a legend when he smites his foe with one swing of his axe during a nation forging battle Yet this isn't Westeros it's Scotland Game of Thrones is history re imagined as fantasy The History Behind Game of Thrones turns the tables using George R R Martin's extraordinary fictional universe as a way to understand the driving forces and defining moments from Scotland's story Why were castles so important Was there a limit to the powers a medieval king could use or abuse What was the reality of being under siege Was there really anything that can compare to the destructive force of dragons By joining forces Westeros and Scotland hold the answers Writer and presenter David C Weinczok draws on a vast array of characters events places and themes from Scottish history that echo Game of Thrones at every dramatic turn Visit the castle where the real Red Wedding transpired encounter the fearsome historical tribes beyond Rome's great wall learn how a blood red heart became the most feared sigil in Scotland and much more By journey's end the cogs in the wheels of Martin's world and Scottish history will be laid bare as well as the stories of those who tried to shape and sometimes even break them *The Medieval March of Wales* Max Lieberman, 2010-01-28 This book examines the making of the March of Wales and the crucial role its lords played in the politics of medieval Britain between the Norman conquest of England of 1066 and the English conquest of Wales in 1283 Max Lieberman argues that the Welsh borders of Shropshire which were first from c 1165 referred to as Marchia Wallie provide a paradigm for the creation of the March He reassesses the role of William the Conqueror's tenurial settlement in the making of the March and sheds new light on the ways in which seigniorial administrations worked in a cross cultural context Finally he explains why from c 1300 the March of Wales included the conquest territories in south Wales as well as the highly autonomous border lordships This book makes a significant and original contribution to frontier studies investigating both the creation and the changing perception of a medieval borderland *The Early Norman Castles of the British Isles* Ella S.
