Adapted from jacket *Do Cats Need Shrinkers?*

Peter M. Neville, 1991-01-01 Drawing on his patient files, a feline psychologist outlines all types of cat behavior problems and phobias, recommending simple and usually successful treatments for each. **Do Cats Need Shrinkers?** Peter Meville, 1994-08 A humorous guide for cat lovers by an eminent cat psychologist presents a captivating glimpse into the feline psyche, relating the qualities of their unique personalities and discussing typical patterns of quirky behavior. **Cat Speak** Brigitte Rauth-Widmann, 2021 This unique book offers detailed observations of the behaviour of cats and explains in everyday language how to interpret their meaning. Essential reading for anyone who wants to understand more about their cat. Cats have a range of powerful vocal expressions. They meow, sing, purr, spit, and snarl, and even when their paws are tucked neatly underneath them, their body language is still very expressive. As a greeting, they rub their bodies against each other; if they are unsure of something, they arch their back or tilt their ears. And if they don't want to communicate face-to-face or vocally, they simply leave behind a few fragrant messages. These pages hold a fascinating insight into the minds of our feline friends, and here you will discover what these secretive, enigmatic creatures are really thinking. How cats express themselves using body language. Why they scratch and scent mark. With clear descriptions and over 130 colour photographs, this is essential reading for anyone who wants to understand more about their cat. Consequently, you'll need to move onto a solution, and *How To Litter Train Your Cat* can help. You will discover what you need to do to get your cat using the litter box. The stuff you need for an attractive cat box, attractive to your feline, that is. What to do after a medical episode. The right kind of litter for you and your cat.
