

A close-up photograph of a pair of hands gently cradling a small, textured globe of the Earth. The globe is covered in vibrant green moss or lichen, with some areas appearing lighter and more yellowish-green, possibly representing different environmental zones or the effects of climate change. The hands are positioned on either side of the globe, with fingers slightly curled around it. The background is a soft, out-of-focus green, suggesting a natural, outdoor setting. The overall image conveys a sense of care, protection, and global responsibility.

THE IMPACT OF CORRUPTION ON SUSTAINABLE DEVELOPMENT

Corruption And Development:

The impact of corruption on development and economic performance Daniel Detzer, 2010-07-08 Seminar paper from the year 2010 in the subject Business economics Miscellaneous grade 1.0 Berlin School of Economics Global Governance language English abstract During the last decades corruption became an important topic About twenty years ago the issue started to gain increasing attention Different Organizations engage in the fight against corruption This is a remarkable change compared to the situation before the 1990s Back then most people did not see it as a pressing problem Actually it was more seen as an integral part of doing business Most European countries allowed for tax deductibility of bribes Even the World Bank not constricted by such national concerns was avoiding the topic The changed perception of corruption has manifold reasons Foremost the geopolitical situation changed remarkably During the cold war governments despite their corruptness were supported to make sure they were not joining the communist bloc After the end of this ideological competition the imperative to tolerate and not to address issues like corruption and abuse of political power ceased to exist Last but not less important the USA not constraint by geopolitical considerations had economic interest to put the topic on the agenda While for US companies bribing abroad was forbidden most other developed countries used graft to initiate business abroad Therefore the US had a special interest to push for anti corruption laws to level the playing field for its companies From a western normative and moral point of view this fight against corruption on the international level seems to be a desirable development However if those were the only reasons for this crusade it could be misperceived as another example of the imposition of rules from the Global North on the Global South Then again if corruption has negative impacts other than moral concerns it would legitimize this movement Prevailing corruption might influence the development and economic performance of a country In today's perception development and economic performance includes a variety of indicators which improve people's quality of life Therefore after having narrowed the definition of corruption as it is understood within this paper the correlation between corruption and some of those indicators will be examined After this basic assessment the relationship between economic growth as one of the indicators for development and corruption shall be illuminated closer The question whether there is a causal relationship and what the channels of this connection are shall be explored

Corruption & Development Aid Georg Cremer, 2008 **Corruption and Development in Nigeria** Oláyínká Àkànle, David O. Nkpe, 2021-12-28 Despite being Africa's largest economy and most populous country with abundant natural resources Nigeria still faces substantial development challenges This book argues that corruption lies at the heart of many of the country's problems Drawing on a range of different disciplinary perspectives this volume explores the relationship between corruption and development investigating the causes contexts and consequences of corruption and the pathways for addressing it As well as covering the wider background and theory surrounding corruption in the country the book will investigate different sectors the media the judiciary the health sector industry the criminal justice system and of course

politics and governance The book concludes by considering attitudes and perceptions to corruption within Nigeria current approaches to countering corruption and future pathways to addressing the problem This book s critical investigation of the links between corruption and development in Nigeria will be of interest to researchers of corruption development and African Studies as well as to policy makers practitioners and local stakeholders

Corruption and Development in Africa K. Hope,B. Chikulo,1999-08-18 Bringing together a distinguished cast of contributors the book provides an authoritative and definitive analysis of the theory practice and development impact of corruption in Africa Combating corruption is demonstrated to require greater priority in the quest for African development

Corruption and Development S. Bracking,2007-11-28 This collection examines anti corruption campaigns and argues that they have often resulted in perverse and unintended consequences The book examines how corruption has been addressed and sometimes tolerated in Africa Asia Latin America and East Central Europe to interrogate government policy and question development discourse and practice

Corruption, Development and Underdevelopment Robin Theobald,1989-12-11 Corruption for most of us almost immediately evokes images of the third world especially countries like Nigeria Mexico and India Whilst we may concede that corruption exists in developed countries it is generally thought to be under control Despite such widely held views there is very little hard evidence on the actual extent of corruption in any country This book strives to look behind impressions in an attempt to determine what factors underlie the high profile of corruption in UDCs For an adequate understanding of the phenomenon the global character of corruption is emphasized as well as the necessity of locating within a broader process of economic and social change

Africa's Development in the Twenty-first Century Kwadwo Konadu-Agyemang,Martin Kwamina Panford,2006 Having been under colonial rule for the first half of the century by 1965 all but a handful of African countries had regained their independence and were poised to take off into an era of development However Africa now suffers from the most acute form of underdevelopment anywhere in the world Bringing together a broad selection of case studies covering a wide range of key issues this volume provides a multidisciplinary exploration of Africa s development opportunities and challenges into the twenty first century

Corruption, Politics and Development H. Marquette,2003-11-04 In 1997 the World Bank announced a strategy to help its borrowers combat corruption despite earlier claims that work of this kin violated the Bank s non political mandate Despite many attempts to reshape corruption as an economic issue rather than a political one the non political mandate has never been satisfactorily addressed Heather Marquette argues that the Bank should focus in its strengths and avoid the more controversial components of its anti corruption programme which threaten its credibility

Corruption, Development and the Environment Lorenzo Pellegrini,2011-02-11 The book analyses the influence of corruption on economic growth and environmental protection examining corruption from different perspectives It contributes to several streams of the literature and assembles evidence

of the influence of corruption on two important variables in human welfare income and environmental policies The material evinces the detrimental effect that corruption has on economic growth and on the stringency of environmental policies It also shows that standard techniques for fighting corruption are often based either on simplistic definitions or on strong assumptions that do not apply in many countries blighted by corruption From a methodological standpoint this work combines a number of approaches including a theoretical discussion of corruption and of its definition often omitted in economic studies together with econometrics case studies and policy discussions

Corruption, Development and Institutional Design J. Kornai, L. Mátyás, G. Roland, 2009-02-25 With the aim of providing a comprehensive analysis of institutions and of the global economy more generally this volume explores systems of institutions and the effect of corruption developments in behavioural economics the impact of immigration and the links between democratic progress and economic growth

Corruption and Economic Development, 2016 Corruption is an almost universal and persistent feature of the modern state Commentators primarily view corruption as a major obstacle to development whereas dissenting voices claim that corruption has the power to facilitate trade that would otherwise not have taken place Written by the editors this research review provides an insightful discussion of the most significant works contributing to our understanding of this debate Focusing on the key conceptual and theoretical issues along with an examination of anti corruption policies this review is a valuable asset to scholars and academics alike

Corruption and Human Development in Africa Jacques P. Nguemegne, 2011-11-09 This study is to the authors knowledge the first empirical cross country analysis of the relationship between corruption and human development HD in Africa In most African countries the current state of HD is critically poor In spite of two decades of democratization and substantial economic growth or stability corruption has become endemic and tends to adversely affect HD conditions and needs Using a pooled cross section across time design and a sample of 40 African countries over many years 2003 2007 and based on an OLS Analysis this study attempts an empirical examination of the association between corruption and HD in Africa while holding constant economic growth government socioeconomic or welfare expenditures and political system and controlling for some major internal and external economic variables As found corruption adversely affects human development in Africa Overall based on the main study model Model 1 a unit increase in the corruption level CPI on a scale of 1 to 10 will cause a 48 percent decrease in the state of HD HDI The relationship between corruption and HD is however non linear using Model 3 which incorporate a square term of corruption it was found that at and below 4 577 RCPI i e 42 normal CPI corruptions is likely to positively affect HD whereas at and above 4 577 RCPI corruption rather tends to adversely affect HD with an increasing return Besides it was also found using Model 2 which incorporates an interaction term of corruption and political system that democratization has deceived scientists theoretical projections and peoples political expectations of the 1990s Democracy has not improved HD in Africa Both non and partly democratic i e authoritarian and democratic political systems adversely affect HD The adverse impact of corruption on HD is

even worse in the latter systems After checking for the main effect Model 2 it appears that as corruption increases by one unit HD decreases by 9.48 percent in African countries with authoritarian systems In contrast the same one unit increase in corruption will have an additional 5.23 percent decrease in the HD of African countries with a democratic system This study brings new insights about public policies ineffectiveness and failures to satisfy increasing HD needs in Africa It throws new lights on the relationship existing between economic growth democracy and corruption and HD It suggests some policy reforms which could improve the state of HD in Africa Overall it is an important contribution to the theoretical and empirical body of administrative theory and knowledge
