American Trade Strategy:

An American Trade Strategy Robert Z. Lawrence, Charles L. Schultze, 1990-09 This book assesses options for the decade ahead including multilateral free trade aggressive bilateralism and managed trade and evaluates their implications for American trade policy

American Trade Policy, 1923-1995 Edward Kaplan, 1996-03-20 Shows American trade policy has become more protectionist and that unilateral confrontations could lead to destruction of free trade

U.S. Trade Strategy Daniel W. Drezner, 2006 This book in the form of a memorandum to the president suggests two alternative approaches the United States could take to trade policy

American Trade Policy Anne O. Krueger, 1995 In this monograph Anne O Krueger demonstrates the increasing reliance on bilateral and regional trading arrangements and shows the dangers of departures from multilateralism Using examples from trading relationships with individual countries especially Japan and Korea she shows how the presence of third countries not covered by agreements market forces and unanticipated technological and economic events undermine the intended effects of many bilateral arrangements Ms Krueger analyzes the North American Free Trade Agreement and its prospective enlargement to a Western Hemisphere free trade agreement in light of its impact on the multilateral trading system While such arrangements can be GATT plus they can also be GATT substitutes The author outlines the ways in which the presence of regional arrangements can detract from the open multilateral trading system especially at a time when the new World Trade Organization should be the focal point of energy and attention Ms Krueger concludes by summarizing the failures of bilateral approaches to achieving their objectives and calling for a renewed commitment to the open multilateral trading system

Clashing Over Commerce Douglas A. Irwin, 2017-11-29 A Foreign Affairs Best Book of the Year Tells the history of American trade policy A grand narrative that also debunks trade policy myths Economist Should the United States be open to commerce with other countries or should it protect domestic industries from foreign competition This question has been the source of bitter political conflict throughout American history Such conflict was inevitable James Madison argued in the Federalist Papers because trade policy involves clashing economic interests The struggle between the winners and losers from trade has always been fierce because dollars and jobs are at stake depending on what policy is chosen some industries farmers and workers will prosper while others will suffer Douglas A Irwin s *Clashing over Commerce* is the most authoritative and comprehensive history of US trade policy to date offering a clear picture of the various economic and political forces that have shaped it From the start trade policy divided the nation first when Thomas Jefferson declared an embargo on all foreign trade and then when South Carolina threatened to secede from the Union over excessive taxes on imports The Civil War saw a shift toward protectionism which then came under constant political attack Then controversy over the Smoot Hawley tariff during the Great Depression led to a policy shift

toward freer trade involving trade agreements that eventually produced the World Trade Organization Irwin makes sense of this turbulent history by showing how different economic interests tend to be grouped geographically meaning that every proposed policy change found ready champions and opponents in Congress Deeply researched and rich with insight and detail *Clashing over Commerce* provides valuable and enduring insights into US trade policy past and present Combines scholarly analysis with a historian's eye for trends and colorful details readable and illuminating for the trade expert and for all Americans wanting a deeper understanding of America's evolving role in the global economy National Review Magisterial Foreign Affairs

The State and American Foreign Economic Policy G. John Ikenberry, David A. Lake, Michael Mastanduno, 1988 How has the U S government made the nation's foreign economic policy over the last hundred years Social scientists have traditionally presented the American state as relatively weak its policies as directly reflecting the domestic balance of strength among interested social groups and economic sectors This collection of essays by seven notable young political scientists provides a theoretical reevaluation of the forces at work in national policy making and present evidence that the effectiveness of the national government in shaping U S policy has been greatly underestimated *U.S. Trade Policy* United States. Congress. House. Committee on Ways and Means. Subcommittee on Trade, 1982 *The New Global Economy* Senate Democratic Working Group on Trade Policy, 1985 *Future Visions for U.S. Trade Policy* Bruce Stokes, 1998 Four experts provide contrasting points of view and different solutions as the administration attempts to fashion a U S trade strategy for the 21st century
