Biden Administration's 2022 NSS

KEY PILLARS

- **America First.**
- **Principled realism and sovereignty of nation-states define the relations between countries.**

- **Rejection of America First.**
- **Idealist vision, which takes a globalist perspective on relations between nations.**

IDENTIFYING THREATS TO THE HOMELAND

- **Prioritizes China as the preeminent national security challenge to the United States.**
- **Secures the border to protect American communities from cartels and human traffickers. Enforces immigration laws inside the U.S.**
- **Targets radical Islamist terrorism at the source.**

- **Prioritizes climate change as the main challenge to U.S. national security, calling it "the existential challenge of our time."**
- **Fails to address the border crisis and introduce a solution in its discussion of quickly processing migrants apprehended at the southern border.**
- **Focuses on violent domestic extremism as a threat to American democracy; no mention of radical Islamist extremism as a preeminent threat to the homeland.**

APPROACH TOWARD CHINA

- **Designates China as the leading national security challenge today.**
- **Holds China accountable for trade violations.**
- **Places direct responsibility on China for their intellectual property theft of American research as well as their production and distribution of fentanyl.**

- **Acknowledges China is the biggest "geopolitical challenge," but its focus is on how the U.S. can "coexist peacefully" with China at the expense of American interests.**
- **Shows willingness to overlook China's trade violations to preserve collaboration with China on climate change.**
- **Fails to place direct culpability on China for their intellectual property theft of American research as well as their production and distribution of fentanyl.**

DEALING WITH IRAN

- **Rejects the flawed approach of the Iranian nuclear deal and works with partners in the Middle East to deny Iran nuclear weapons.**
- **Directly addresses and challenges Iran's state sponsorship of terrorist organizations and threats against Israel.**

- **Uses a failed diplomatic approach to ensure Iran does not acquire nuclear weapons.**
- **Fails to mention Iran's sponsorship of terrorism or its threats against Israel.**

American Security Policy And Policy Making:

American National Security Policy John T. Fishel, 2017-02-15 Security policy is a key factor not only of domestic politics in the U S but also of foreign relations and global security This text sets to explain the process of security policy making in the United States by looking at all the elements that shape it from institutions and legislation to policymakers themselves and historical precedents To understand national security policy the book first needs to address the way national security policy makers see the world It shows that they generally see it in realist terms where the state is a single rational actor pursuing its national interest It then focuses on how legislative authorities enable and constrain these policy makers before looking at the organizational context in which policies are made and implemented This means examining the legal authorities that govern how the system functions such as the Constitution and the National Security Act of 1947 as well as the various governmental institutions whose capabilities either limit or allow execution such as the CIA NSA etc Next the text analyzes the processes and products of national security policy making such as reports showing how they differ from administration to administration Lastly a series of case studies illustrate the challenges of implementing and developing policy These span the post Cold war period to the present and include the Panama crisis Somalia the Balkans Haiti the Iraq wars and Afghanistan By combining both the theory and process this textbook reveals all aspects of the making of national security policy in United States from agenda setting to the successes and failures of implementation US National Security John Allen Williams, Stephen J. Cimballa, Sam Charles Sarkesian, 2022 Introduces and explores the full range of actors processes and politics involved in the US national security process *American Security Policy and Policy-making* Robert E. Foreign Policymaking After 9/11 Kent M. Bolton, 2007-08-24 In December 2004 the 109th Congress passed and President George W Bush signed the Intelligence Reform and Intelligence Prevention Act IRTPA M Kent Bolton argues that IRTPA represented a change in the trajectory of U S national security policy the first fundamental demonstrable change since the 1947 National Security Act 1947 NSA became law creating a unified U S Department of Defense the Central Intelligence Agency and the National Security Council among other entities As the 1947 NSA presaged a new era of U S policymaking so too did the IRTPA As such the IRTPA represents an extraordinarily important piece of legislation for students and scholars of U S foreign and national security policy The author documents how and why it became law and how it has affected policymaking He further argues that the changes begun by 9 11 and memorialized by IRTPA will likely affect U S national security policymaking for decades if not generations

American Security and the Global War on Terror Edwin Jacob, 2020-04-08 This book delivers an interpretive framework for making sense of today s geopolitical landscape and casts new light on the impact ideology and technology have had on American foreign policy and contemporary security practices Edwin Daniel Jacob argues that America s security practices in the Global War on Terror have been guided by an anachronistic Cold War logic that has subordinated strategy to tactics Jacob shows that deep rooted prejudices and presuppositions regarding American exceptionalism have had a disastrous impact on the policies of the United States not only in dealing with terrorism but also in seeking to impose American hegemony in the Middle East Ineffectual security practices of dubious moral character from rendition and torture to preemptive strikes and nation building to drones and assassinations privilege exigency over ethics Yet the result of this post strategic approach to security where interchangeable tactics like these masquerade as strategy only increases insecurity Jacob offers a fresh perspective on American foreign policy that links national security with human security in regional terms This approach highlights the need for order predictability and stability the cornerstone of political
