Amish Landscape:

Pennsylvania Farming Sally McMurry, 2017-06-08 Since precolonial times agriculture has been deeply woven into the fabric of Pennsylvania's history and culture. *Pennsylvania Farming* presents the first history of Pennsylvania agriculture in more than sixty years and offers a completely new perspective. Sally McMurry goes beyond a strictly economic approach and considers the diverse forces that helped shape the farming landscape from physical factors to cultural repertoires to labor systems. Above all, the people who created and worked on Pennsylvania's farms are placed at the center of attention. More than 150 photographs inform the interpretation, which offers a sweeping look at the evolution of Pennsylvania's agricultural landscapes right up to the present day.

Sacred Worlds Chris Park, 2002-11-01 This book, the first in the field for two decades, looks at the relationships between geography and religion. It represents a synthesis of research by geographers of many countries, mainly since the 1960s. No previous book has tackled this emerging field from such a broad interdisciplinary perspective, and never before have such a variety of detailed case studies been pulled together in so comparative or illuminating a way. Examples and case studies have been drawn from all the major world religions and from all continents from both a historical and contemporary perspective. Major themes covered in the book include the distribution of religion and the processes by which religion and religious ideas spread through space and time. Some of the important links between religion and population are also explored. A great deal of attention is focused on the visible manifestations of religion on the cultural landscape, including landscapes of worship and of death and the whole field of sacred space and religious pilgrimage.

Ethnic Landscapes of America John A. Cross, 2017-06-19 This volume provides a comprehensive catalog of how various ethnic groups in the United States of America have differently shaped their cultural landscape. Author John Cross links an overview of the spatial distributions of many of the ethnic populations of the United States with highly detailed discussions of specific local cultural landscapes associated with various ethnic groups. This book provides coverage of several ethnic groups that were omitted from previous literature, including Italian Americans, Chinese Americans, Japanese Americans, and Arab Americans, plus several smaller European ethnic populations. The book is organized to provide an overview of each of the substantive ethnic landscapes in the United States. Between its introduction and conclusion, which looks towards the future, the chapters on the various ethnic landscapes are arranged roughly in chronological order such that the timing of the earliest significant surviving landscape contribution determines the order the groups will be viewed. Within each chapter, the contemporary and historical spatial distribution of the ethnic groups are described, the historical geography of the group's settlement is reviewed, and the salient aspects of material culture that characterize or distinguish the group's ethnic landscape are discussed. *Ethnic Landscapes of America* is designed for use in the classroom as a textbook or as a reader in a North American regional course or a cultural geography course. This volume also can function as a detailed summary reference that should be of interest to geographers, historians, ethnic scholars, other social scientists, and the educated public.

A Thousand Pieces of Paradise Lynne Heasley, 2012-04-19 A Thousand Pieces of Paradise is an ecological history of property and a cultural history of rural ecosystems set in one of the Midwest's most historically significant regions the Kickapoo River Valley Whether examining the national war on soil erosion Amish migration a Corps of Engineers dam project or Native American land claims Lynne Heasley traces the history of modern American property debates Her book holds powerful lessons for rural communities seeking to reconcile competing values about land and their place in it

The Farm Landscape Geoffrey Maitland Gyrisco, 1996 A bibliography of the architecture and archaeology of farmsteads and settlement in Wisconsin and in the areas of origin of its settlers in the United States and Europe

Geography of Time, Place, Movement and Networks, Volume 2 Stanley D. Brunn, 2024-05-23 This book explores journeys in a time context with a focus on places place meanings and landscapes Whether the journey relates to ancient or modern trails roads or railroads or a historical or contemporary pilgrimage or a tourist venture in social contexts the book addresses the importance of places and environmental settings whereby time itself is described and defined in multiple contexts The chapters discuss among others archaeological and pre history settings tourism settings and heritage events as well as regional and transnational migration routes and those used by historical nomadic cultures and postmodern nomads Some time and place journeys are fluid and dynamic and re interpreted while for others there is much sameness in the visible landscapes Retaining the past and reconstructing the past are both journeys That sameness concept is also applied to cultural and political worlds where there is little progress or reform to address social welfare and empowerment This book opens the door for exploring shallow and deep journeys by those in the humanities and social sciences at local national and regional scales
