*Mary Moody Emerson and the Origins of Transcendentalism* Phyllis Cole, 2002 Mary Moody Emerson has long been a New England legend the eccentric Calvinist aunt of Ralph Waldo Emerson wearing a death shroud as her daily garment This exciting new study based on the first reading of all her known letters and diaries reveals a complex human voice and powerful forerunner of American Transcendentalism From the years of her famous nephew's infancy in both private and published writings she celebrated independence solitude in nature and inward communion with God Mary Moody Emerson inherited both resources and constraints from her family a lineage of Massachusetts ministers who had earlier practiced spiritual awakening and political resistance against England Cole discovers a previously unexamined Emerson tradition of fervent piety in the ancestors own writing and Mary's preservation of their memory She also examines the position of a woman in this patriarchal family Barred from the pulpit and university by her sex she also refused marriage to become a reader writer and religious seeker Cole's biography explores this reading and writing as both a woman's vocation and a gift to Ralph Waldo Emerson Helping to raise her nephews after their father's death Mary Moody Emerson urged Waldo the college student to seek solitude in nature and become a divine poet Cole's pioneering study tracing crucial lines of influence from Mary Emerson's heretofore unknown texts to her nephew's major works establishes a fresh and vital source for a central American literary tradition

**World Bank Literature** Amitava Kumar, 2003 World Bank literature is more than a concept it is a provocation a call to arms It is intended to prompt

questions about each word to probe globalization political economy and the role of literary and cultural studies As asserted in this major work it signals a radical rewriting of academic debates a rigorous analysis of the World Bank and the International Monetary Fund IMF and a consideration of literature that deals with new global realities Made more relevant than ever by momentous antiglobalization demonstrations in Seattle and Genoa World Bank Literature brings together essays by a distinguished group of economists cultural and literary critics social scientists and public policy analysts to ask how to understand the influence of the World Bank IMF on global economic power relations and cultural production The authors attack this question in myriad ways examining World Bank IMF documents as literature their impact on developing nations the relationship between literature and globalization the connection between the academy and the global economy and the emergence of coalitions confronting the new power World Bank Literature shows above all the multifarious and sometimes nefarious ways that abstract academic debates play themselves out concretely in social policy and cultural mores that reinforce traditional power structures
