Homosexuality in French History and Culture Jeffrey Merrick, Michael Sibal, 2013-09-13 Deconstruct changing representations of homosexuality with this important new work of cultural criticism Homosexuality in French History and Culture explores episodes patterns and images of same sex attraction in France from the sixteenth to the twenty first century from the essays of Michel de Montaigne to pride parades in contemporary Paris This groundbreaking book documents the ways homosexuality has been named experienced regulated understood and imagined During these centuries homosexuality has been stigmatized as a sin crime or disease and denounced as a threat to social order and national identity Yet the rhetoric of condemnation has always co existed with the reality of toleration This groundbreaking collection analyzes the ways in which persecutions as well as differences within minority sexual subcultures have highlighted stereotypes and anxieties about class and age differences gendered roles and separatism Homosexuality in French History and Culture offers historical and literary studies based on a wide variety of sources including novels plays and poetry gossip and satires police reports medical texts travel literature newspapers and periodicals memoirs Homosexuality in French History and Culture combines fresh creative re interpretation of familiar texts with exciting new explorations of neglected historical episodes and cultures It is a landmark of meticulous scholarship and rigorous theoretical analysis and a vital resource for scholars of queer theory French history and culture and literary criticism

"Titian, Colonna and the Renaissance Science of Procreation " Anthony Colantuono, 2017-07-05 Titian Colonna and the Renaissance Science of Procreation demonstrates that two major monuments of Italian Renaissance culture Bellini s and Titian s famous series of mytho poetical paintings for the camerino of Duke Alfonso d Este of Ferrara and Francesco Colonna s Hypnerotomachia Poliphili were conceived as mnemonic or pedagogical devices aimed at educating the reader beholder in the medical science of reproductive physiology and the maintenance of sexual health It is further argued that the learned courtier Mario Equicola who conceived the pictorial program of Duke Alfonso s camerino had read Colonna s text and was extensively inspired by its prior literary argument The study is organized in two parts intimately interrelated The first part is a study of Alfonso d Este s camerino with a general introduction individual chapters on each of Bellini s and Titian s four pictorial bacchanals and a conclusion proposing a new and more accurate reconstruction of the layout of the room also including a completely new way of interpreting the ensemble The second part of the study concerns Colonna s Hypnerotomachia Poliphili again beginning

with its own introductory essay and advancing a completely new interpretation of the text The brief conclusion brings the insights of the two sections together clarifying the historical relationship between the pictorial and literary works and explaining their larger cultural significance Emphasizing Equicola s use of the Hypnerotomachia as a model for pictorial invention the author reveals how Titian s remarkably sensuous paintings and Colonna s erotically charged romance are related by their common reference to the neo Aristotelian medical theory of the libidinal seasons and by corollary themes of marriage and sexual consummation This peculiar intersection of cultural themes came to prominence in the context of a courtly world in which medical science was increasingly brought to bear on the problem of dy

The Secret Life of the Georgian Garden Kate Felus,2016-12-09 Georgian landscape gardens are among the most visited and enjoyed of the UK s historical treasures The Georgian garden has also been hailed as the greatest British contribution to European Art seen as a beautiful composition created from grass trees and water a landscape for contemplation But scratch below the surface and history reveals these gardens were a lot less serene and in places a great deal more scandalous Beautifully illustrated in colour and black white this book is about the daily life of the Georgian garden It reveals its previously untold secrets from early morning rides through to evening amorous liaisons It explains how by the eighteenth century there was a desire to escape the busy country house where privacy was at a premium and how these gardens evolved aesthetically with modestly sized far flung temples and other eye catchers to cater for escape and solitude as well as food drink music and fireworks Its publication coincides with the 2016 tercentenary of the birth of Lancelot Capability Brown arguably Britain s greatest ever landscape gardener and the book is uniquely positioned to put Brown s work into its social context

The Aesthetic Discourse of the Arts Anna-Teresa Tymieniecka,2012-12-06 The fine arts first emerged divided by the five senses yet since their very origin they have projected aesthetic networks among themselves Music song painting architecture sculpture theatre dance distinct in themselves grew together enhancing each other In the present outburst of technical ingenuity individual arts cross all barriers as well as proliferate in kind Hence the traditional criteria of appreciation and enjoyment vanish The enlarged and ever growing field calls for new principles of appreciation and new values essential to our culture This collection initiates an inquiry into the aesthetic foundations of the fine arts Their common aesthetic nature as well as the differentiating specificities which sustain them might reveal the universal role of aesthetics in human life Studies by Paula Carabell J Fiori Blanchfield R Riese Hubert R Gray D Lipten J Parsons S Brown C Osowie Ruoff T Raczka K Karbenier and others

The Emergence of Arabic Poetry Nathaniel A. Miller,2024-08-13 A new literary history of Arabic poetry from 500 750 CE that includes hundreds of lines of poetry never before translated into English To interpret the Quran s Arabic early medieval Muslims turned to pre Islamic poetry a corpus that the Prophet Muhammad s cousin called the archive of the Arabs While this principle seems straightforward pre Islamic Arabs did not in fact think of themselves as either pre Islamic or Arab The term Arab barely appears at all in pre Islamic poetry The Emergence of Arabic Poetry reexamines this early poetry

to reconstruct what pre Islamic culture actually entailed Nathaniel A Miller draws on a wide range of texts including hundreds of lines of poetry never before translated into English in addition to new inscriptional archaeological and non Arabic sources to explore the diverse world of pre and early Islamic Arabia in which Islam developed Miller traces the emergence of two regional identities and their distinctive poetic traditions in the Arabian Peninsula of late antiquity Najdi in the center and northeast and Hijazi in the southwest The book shows how later efforts of Muslim scholars to use early poetry as an aesthetic linguistic ideal to interpret the Quran resulted in an image of a unitary exceptional and isolated Arab identity and culture These scholars drew on the Najdi tradition canonizing its forms as classical Arabic poetry par excellence and solidifying many tropes of Arabness that are still ubiquitous today of nomadism performative generosity and martial equestrianism However Miller argues it was the neglected Hijazi tradition that was actually more central to the emergence of early Islam Early Arabic poetry has been largely overlooked in current scholarship in adjacent fields largely due to twentieth century controversies over whether this corpus is legitimate or was forged In combining a reconstruction of pre Islamic poetry s social function with a consideration of the circumstances of its later canonization *The Emergence of Arabic Poetry* offers an urgently needed reappraisal of a significant but underexamined poetic corpus as well as a new literary history of the origins of Arabic poetry from 500 to 750 CE

Challenging Conventions Christiane Czygan, Hatice Aynur, 2025-06-30

As the core theme of Early Modern Ottoman poetry love inspired a plethora of Turkish research the most enlightening of which explored questions of terminology semantics and mystic dimensions Internationally however there have been few publications on this subject This book closes this gap by investigating in different genres and contexts Whereas the terms *ubb* and *ma abbet* point to comfort and care the term denotes passionate love often laced with mystical connotations Through this lens we show that Ottoman lyrical realities transgressed the rules burgeoning beyond conventional settings and giving voice to vivid creativity Large parts of urban society indulged in poetry and thereby challenged certain norms

[The Post Card](#) Jacques Derrida, 2020-10-28 17

November 1979 You were reading a somewhat retro loveletter the last in history But you have not yet received it Yes its lack or excess of address prepares it to fall into all hands a post card an open letter in which the secret appears but indecipherably What does a post card want to say to you On what conditions is it possible Its destination traverses you you no longer know who you are At the very instant when from its address it interpellates you uniquely you instead of reaching you it divides you or sets you aside occasionally overlooks you And you love and you do not love it makes of you what you wish it takes you it leaves you it gives you On the other side of the card look a proposition is made to you S and p Socrates and plato For once the former seems to write and with his other hand he is even scratching But what is Plato doing with his outstretched finger in his back While you occupy yourself with turning it around in every direction it is the picture that turns you around like a letter in advance it deciphers you it preoccupies space it procures your words and gestures all the bodies

that you believe you invent in order to determine its outline You find yourself you yourself on its path The thick support of the card a book heavy and light is also the specter of this scene the analysis between Socrates and Plato on the program of several others Like the soothsayer a fortune telling book watches over and speculates on that which must happen on what it indeed might mean to happen to arrive to have to happen or arrive to let or to make happen or arrive to destine to address to send to legate to inherit etc if it all still signifies between here and there the near and the far da und fort the one or the other You situate the subject of the book between the posts and the analytic movement the pleasure principle and the history of telecommunications the post card and the purloined letter in a word the transference from Socrates to Freud and beyond This satire of epistolary literature had to be farci stuffed with addresses postal codes crypted missives anonymous letters all of it confided to so many modes genres and tones In it I also abuse dates signatures titles or references language itself J D With The Post Card as with Glas Derrida appears more as writer than as philosopher Or we could say that here in what is in part a mock epistolary novel the long section is called Envois roughly dispatches he stages his writing more overtly than in the scholarly works The Post Card also contains a series of self reflective essays largely focused on Freud in which Derrida is beautifully lucid and direct Alexander Gellay Library Journal **A King's Lessons in Statecraft** ,1925 *Creative and Cultural Industries in East Asia* Brian Moeran,2021-08-04 This book presents an introductory overview of the socio economic organization of creative industries focusing on the East Asian context Establishing a theoretical framework founded on the work of Richard Caves Howard Becker and Pierre Bourdieu this textbook is an accessible introduction to creative and cultural industries Drawing on examples from Japan South Korea and China it both examines what is unique about cultural production in these countries and places them in a global and intercultural context Building on themes of uncertainty and networks of cooperation Brian Moeran looks at the role of social ties in defining notions of quality He then analyses the positioning of individual actors organisations and commodities in each field of cultural production and the exchanges of economic and symbolic capital that take place between them Examples are taken from a range of cultural and creative industries including film music and fashion Overall *Creative and Cultural Industries in East Asia* serves as a foundational introduction to the study of creative and cultural production in East Asia Olden Times in Zululand and Natal Alfred T. Bryant,1929 **Kings Jazz and David** Irving Schwerké,1927 Voices of the French Revolution Richard Cobb,1988 From Publishers Weekly This irresistible history of the French Revolution is much more than a colorful mosaic By splicing a reflective narrative with graphics engravings satirical cartoons photographs and primary documents letters trial transcripts memoirs decrees newspaper editorials it brings vivid immediacy to tumultuous events without sacrificing objective distance The main narrative consists of dozens of tableaux allowing room for such topics as prison conditions Freemasonry feudalism the market for luxury goods Along with the expected profiles of Marie Antoinette Louis XVI Robespierre and Marat we meet scheming pretender Philippe of Orleans who tried to bring down the king professional revolutionary Tom Paine imprisoned

under the Terror and unstable leftist Joseph Fouché who led a campaign of de Christianization and later became Napoleon's police minister. The text is provocative in its discussion of the Jacobins' prototype welfare state and of the Terror as a response to foreign pressures via amazon.com 1988 HarperCollins ed. Transactions of the Asiatic Society of Japan Asiatic Society of Japan, 2014. List of transactions v 1 41 in v 41. **German Military Intelligence** Paul Leverkuehn, 1954. During the war World War II the author was chief of German espionage in Turkey and the Near East and he describes the elaborate intrigues with the Mufti of Jerusalem and Rashid Ali the Iraqi Prime Minister whom he smuggled out of Turkey disguised as a German journalist. He tells many other fascinating stories of the Abwehr that of the man who sailed an agent 14 000 miles to operate against the British in South Africa of the men who organised the Brandenburg Commandos who operated far behind the Russian lines in enemy uniform of the mysterious Klatt who claimed to be in contact with a radio operator inside the Kremlin of the unmasking of the great Soviet spy organisation of the rote Kapelle which functioned inside the German Air Ministry. He also throws interesting light on the Germans' use of nationalist minorities the intrigues with the Flemish nationalists in Belgium the negotiations with the I R A in Ireland and the recruitment of Ukrainians against Russia. This book is the first authoritative account of German Military Intelligence Service and an important contribution to the history of the Second World War. **Slaves of the White God** Colin A. Palmer, 1976. Montaigne, Or, The Anguished Soul Pierre Leschemelle, 1994. Pierre Leschemelle has written a provocative study of Montaigne one that follows the essayist's clear command that we bring a strong psychological focus to his writings. Presenting Montaigne in a new light one that is frank and honest yet highly laudatory. Leschemelle has had the courage to re-examine former assessments of the writer. He has broken new ground in our fuller understanding of both Montaigne and the Essays particularly the former while still acknowledging the essayist's greatness as a thinker his insight and his ability.
