## **An African Bestiary:**

**An African Bestiary** Gerald Summers,1974      **African Bestiary** Willis Barnstone,2025-06-25 A poetic look and plea for all the the animals now endangered or near extinction in Africa Barnstone who has traveled and lived in Africa for a number of years states I have been working on it African Bestiary since my first pencil and ink drawings in Kenya Zanzibar etc for the last 36 years Delightfully illustrated by Barnstone with full color illustrations on every page the book is meant to be enjoyed by people of all ages      **African Bestiary** Willis Barnstone,2009      **African Bestiary** ,2015      [Animal Skins and the Reading Self in Medieval Latin and French Bestiaries](#) Sarah Kay,2017-02-24 Just like we do today people in medieval times struggled with the concept of human exceptionalism and the significance of other creatures Nowhere is this more apparent than in the medieval bestiary Sarah Kay s exploration of French and Latin bestiaries offers fresh insight into how this prominent genre challenged the boundary between its human readers and other animals Bestiaries present accounts of animals whose fantastic behaviors should be imitated or avoided depending on the given trait In a highly original argument Kay suggests that the association of beasts with books is here both literal and material as nearly all surviving bestiaries are copied on parchment made of animal skin which also resembles human skin Using a rich array of examples she shows how the content and materiality of bestiaries are linked due to the continual references in the texts to the skins of other animals as well as the ways in which the pages themselves repeatedly and at times it would seem deliberately intervene in the reading process A vital contribution to animal studies and medieval manuscript studies this book sheds new light on the European bestiary and its profound power to shape readers own identities      [Catalog of the Melville J. Herskovits Library of African Studies, Northwestern University Library \(Evanston, Illinois\) and Africana in Selected Libraries](#) Melville J. Herskovits Library of African Studies,1972      **The African Link** Anthony J. Barker,2022-09-21 The African Link first published in 1978 breaks new ground in the studies of pre 19th century racial prejudice by emphasizing the importance of the West African end of the slave trade For the British the important African link was the commercial one which brought slave traders into contact with the peoples of West Africa Far from remaining covert their experiences were reflected in a vast array of scholarly educational popular and polemical writing The picture of Black Africa that emerges from these writings is scarcely favourable yet through the hostility of traders and moralising editors appear glimpses of respect and admiration for African humanity skills and artefacts The crudest generalisations about Black Africa are revealed as the inventions of credulous medieval geographers and of the late 18th century pro slavery lobby The author combines the more matter of fact reports of the intervening centuries with analysis of 17th and 18th century social and scientific theories to fill a considerable gap in the history of racial attitudes      *Confronting the Sacred: Durkheim vindicated through philosophical analysis, ethnography, archaeology, long-range linguistics, and comparative mythology* Wim van Binsbergen,2018-05-06 With *Elementary Forms of Religious Life* 1912 the sociologist mile Durkheim formulated the most influential social science theory of religion to date

Pivotal are the paired concepts sacred profane the notion of collective representations and the hypothesis that through such religious symbols society compels its members to venerate herself i e to submit to the social as an irreducible instance in its own right Having grappled with this Durkheimian inheritance for half a century the anthropologist of religion and intercultural philosopher Wim van Binsbergen in this book traces his own steps in confront\_ing Durkheim s sacred through theoretical criticism through ethnographic application to popular Islam in the segmentary social organisation of the highlands of Northwestern Tunisia and by state of the art long range methods of linguistic and comparative mythological analysis Thus much to his surprise he demonstrates the continued validity of Durkheim s insights in religion *Maps and Monsters in Medieval England* Asa Mittman,2013-09-13 This study centers on issues of marginality and monstrosity in medieval England In the middle ages geography was viewed as divinely ordered so Britain s location at the periphery of the inhabitable world caused anxiety among its inhabitants Far from the world s holy center the geographic margins were considered monstrous Medieval geography for centuries scorned as crude is now the subject of several careful studies Monsters have likewise been the subject of recent attention in the growing field of monster studies though few works situate these creatures firmly in their specific historical contexts This book sits at the crossroads of these two discourses geography and monstrosity treated separately in the established scholarship but inseparable in the minds of medieval authors and artists *Black and Slave* David M. Goldenberg,2017-05-22 Studies of the Curse of Ham the belief that the Bible consigned blacks to everlasting servitude confuse and conflate two separate origins stories etiologies one of black skin and the other of black slavery This work unravels the etiologies and shows how the Curse an etiology of black slavery evolved from an earlier etiology explaining the existence of dark skinned people We see when where why and how an original mythic tale of black origins morphed into a story of the origins of black slavery and how in turn the second then supplanted the first as an explanation for black skin In the process we see how formulations of the Curse changed over time depending on the historical and social contexts reflecting and refashioning the way blackness and blacks were perceived In particular two significant developments are uncovered First a curse of slavery originally said to affect various dark skinned peoples was eventually applied most commonly to black Africans Second blackness originally incidental to the curse in time became part of the curse itself Dark skin now became an intentional marker of servitude the visible sign of the blacks degradation and in the process deprecating black skin itself **Book of Monsters** David Fairchild,Marian Fairchild,1914 *Debating Otherness with Richard Kearney: Perspectives from South Africa* Daniël P. Veldsman,Yolande Steenkamp,2018-12-31 Richard Kearney is one of the leading global thinkers in both Continental philosophy and post metaphysical philosophy of religion as well as an esteemed Irish professor in philosophy currently teaching at Boston College Massachusetts USA Professor Kearney first visited South Africa in May as joint visiting academic of the Universities of Stellenbosch Pretoria and North West The visit prompted the publication of this scholarly collected work authored by South African and international scholars

These specialists in philosophy and religious studies analysed Kearney's influential work and brought his scholarly perspectives into dialogue with other leading thinkers in the field both from Africa and abroad. This publication will be the first collective attempt to engage his work from the perspective of the African continent. This collected work contributes significantly in an interdisciplinary way to Ricoeurian studies. The target audience of the book is peers and specialists in the field of Continental philosophy and philosophy of religion.
