## **An Ark For The Next Millennium:**

**Mariology at the Beginning of the Third Millennium** Kevin Wagner, M. Isabell Naumann, Peter John McGregor, Paul Morrissey, 2017-04-24 Since the Second Vatican Council the place of Mary in theology and generally in the life of the Church has been at times muted This is perhaps understandable given the debates concerning Mary's place in the documents of Vatican II In an ecumenical age it was argued the church needed a less triumphalist Mariology and piety with a greater focus on Mary as model disciple In certain respects this has led to a dichotomy between the continued Marian piety of many faithful and truth be told the piety of the post conciliar popes and a theological timidity concerning Mary This collection of chapters seeks to address the current situation of Mariology Taken as a whole these chapters represent a welcome call for renewal and reawakening in Mariology The collection is also delightfully eclectic both in terms of topics covered and in terms of the denominational and academic backgrounds of the authors

**From Griffin to Axolotl** Ailén Cruz, 2025-12-16 The fox is cunning the lion is brave These familiar ideas span back to the medieval bestiary short animal centred texts often illustrated and used to disseminate Christian teachings in medieval society Translated into dozens of languages bestiaries were wildly popular until the twelfth century After centuries of obscurity six of Latin America's most prominent writers Juan José Arreola Jorge Luis Borges Nicolás Guillén Augusto Monterroso Pablo Neruda and José Emilio Pacheco took up the bestiary during the experimental Latin American avant garde and Boom periods *From Griffin to Axolotl* presents the bestiary as a distinct genre within Hispanic literature examining its resurgence in the contemporary canon Analyzing a corpus of over eighty bestiaries collected through field research in Canada Argentina Mexico and Spain Ailén Cruz explores the evolutions of the genre Reimagined through both prose and art and moving beyond religious teachings these bestiaries range from the rebellious to the nonsensical touching on a spectrum of topics from preservation of Indigenous Latin American cultures to environmental crises and the human condition *From Griffin to Axolotl* promotes an understudied genre of Hispanic literature demonstrating that the bestiary is not extinct but has been remoulded for modern society

**Poetic Animals and Animal Souls** R. Malamud, 2016-04-30 This book offers a new paradigm for reading and appreciating animals in literature and addresses how human culture views animals in poetry Part one sets up a theoretical overview and posits some aesthetic and ethical ideals for transposing animals into art while part two presents a more focused practical application of these ideals in one strain of animal poetry as seen in the works of Marianne Moore José Emilio Pacheco Gary Snyder Pattiann Rogers and others The poetry analyzed in the book is respectfully and non invasively insightful into animals it is tinged with a distancing and a kind of spiritual awe regarding their existence

*An Ark for the Next Millennium* José Emilio Pacheco, 1993 José Emilio Pacheco the most talented poet of his generation often writes poems in which animals act as his alter ego conveying his perceptions sometimes comic often tragic of the human condition His *Album de zoología* of which this is the English version gives voice to myriad creatures who inhabit land sea air and even mythically fire Through their perceptions the poet

challenges much of what is dark in the human psyche cruelty toward ourselves and other life forms destruction of the fragile world that all living creatures share
