**Confronting the Challenges and Prospects in the Creation of a Union of African States in the 21st Century** E. Ike Udogu, 2010-02-19 Confronting the Challenges and Prospects in the Creation of a Union of African States in the 21st Century frames the discourse around the important issue of African unification against the backdrop of the region's political and economic marginalization. Arguably the richest continent in the world in terms of its abundant untapped natural resources and human capital, it still lags behind the other regions of the world developmentally. Undeniably, Africa is at the crossroads in this millennium within the context of the powerful events and effects of the New Globalization. One of the central issues that academics and political actors interested in African development must tackle immediately is how to make the region politically and economically relevant in global affairs. These objectives could be attained through continental amalgamation. Accordingly, this book debates and suggests inter alia strategies that might advance Africa's unification effort in order to provide the politico-economic clout needed to spur continental development. Further, it argues that such a Union of African States is critical for promoting the good political life for all Africans.

**Contemporary Governance Challenges in the Horn of Africa** Charles Manga Fombad, Assefa Fiseha, Nico Steytler, 2022-09-06 This book argues that a leading cause of the political instability in the Horn of Africa is a crisis of governance caused by extreme

centralization of power weak institutions and the failure to institutionalise the responsible use of authority In recent years many attempts have been made to resolve the ongoing conflicts in Somalia and South Sudan but problems remain and in 2019 the instability spread to Ethiopia This book critically examines how many of the governance problems in the region can be addressed through institutional design The central argument is that an inclusive system of governance through federalism devolution and inclusive political institutions as well as ensuring the institutionalization of power through strengthening the rule of law has the potential to make governments more accountable inclusive and be able to deliver critical services Such systems ensure relative stability and peace and reduce the risks of state fragmentation a major concern in the region Demonstrating that the threats of further fragmentation and conflict due to the crisis of governance are likely to continue unless serious steps are taken to deal with the situation the book will be an important read for researchers and policy makers with an interest in peacemaking politics constitutional law and federalism in the region **Foreign Affairs**, 2005 *IBSS: Political Science: 2005 Vol. 54* The British Library of Political and Economic Science, 2006-11-03 First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students researchers and librarians in the social sciences worldwide Key features Authority Rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced Articles and books are selected on merit by some of the world's most expert librarians and academics Breadth Today the IBSS covers over 2000 journals more than any other comparable resource The latest monograph publications are also included International Coverage The IBSS reviews scholarship published in over thirty languages including publications from Eastern Europe and the developing world User friendly organization all non English titles are word sections Extensive author subject and place name indexes are provided in both English and French *Indian Journal of Federal Studies*, 2013
