## **Contemplating The Holocaust:**

**Contemplating the Holocaust** Bernhard H. Rosenberg, Chaim Z. Rozwaski, 1999 The essays in this book cover a wide variety of topics from a survivor's very personal reflections and those of a son of survivors to the nature of the media's response during the Shoah Holocaust and the quest for the meaning of the tragedy of life The essays deal with such questions as the lack of standard universal commemorative services by Jewish communities the continuing efforts by the Catholic Church to christianize the Shoah the commercialization of the Shoah the attempt to de-emphasize the impact of the Shoah on the Jewish people the historical ways in which Jews commemorated their martyrs and the emergence of a Holocaust culture that serves as a surrogate for genuine Judaism The essays are a reflection of the questions that trouble all those who are concerned with the ethical political and theological questions raised by the Shoah Israel and South Africa Ilan Pappé, 2015-10-15 Within the already heavily polarised debate on the Israeli Palestinian conflict parallels between Israel and apartheid South Africa remain highly contentious A number of prominent academic and political commentators including former US president Jimmy Carter and UN Special Rapporteur John Dugard have argued that Israel's treatment of its Arab Israeli citizens and the people of the occupied territories amounts to a system of oppression no less brutal or inhumane than that of South Africa's white supremacists Similarly boycott and disinvestment campaigns comparable to those employed by anti-apartheid activists have attracted growing support Yet while the apartheid question has become increasingly visible in this debate there has been little in the way of genuine scholarly analysis of the similarities or otherwise between the Zionist and apartheid regimes In Israel and South Africa Ilan Pappé one of Israel's preeminent academics and a noted critic of the current government brings together lawyers journalists policy makers and historians of both countries to assess the implications of the apartheid analogy for international law activism and policy making With contributors including the distinguished anti-apartheid activist Ronnie Kasrils Israel and South Africa offers a bold and incisive perspective on one of the defining moral questions of our age **The Holocaust's Ghost** F. C. DeCoste, Bernard Schwartz, 2000-05 Numerous scholars explore the moral aesthetic and political outcomes of the Holocaust from the perspectives of various academic backgrounds including art literature political science education and history Imaging the Scenes of War Christof Decker, 2022-04-04 In American visual culture the 1930s and 1940s were a key transitional period shaped by the era of modernism and the global confrontation of World War II Christof Decker demonstrates that the war and its iconography of destruction challenged visual artists to find new ways of representing its consequences Dealing with trauma and war crimes led to the emergence of complex aesthetic forms and media crossovers Decker shows that the 1940s were a pivotal period for the creation of horrific yet also innovative representations that boosted American visual modernism and set the stage for debates about the ethics of visual culture in the post 9/11 era **The Jews** Yehuda Bauer, 2014 For the last fifty years I have been studying the genocide of the Jews which we call the Holocaust For the last thirty years I have been studying

antisemitism and for the last fifteen years genocide generally and ways to prevent it That is the prism through which I view Jewish history past and present I prefer to look at it from a contemporary point of view That is also the way I view human history in general It is quite possible that this view from the present to the past is decisively influenced by the fact that my professional life is determined by the most tragic and serious issues that any historian and most certainly a Jewish one can deal with the Holocaust antisemitism and genocide Yehuda Bauer Series LIT Premium Subject Sociology Jewish Studies History

**The Nun in the Synagogue** Emma O'Donnell Polyakov,2020-09-11 The *Nun in the Synagogue* documents the religious and cultural phenomenon of Judeocentric Catholicism that arose in the wake of the Holocaust fueled by survivors who converted to Catholicism and immigrated to Israel as well as by Catholics determined to address the anti Judaism inherent in the Church Through an ethnographic study of selected nuns and monks

Emma O Donnell Polyakov explores how this Judeocentric Catholic phenomenon began and continues to take shape in Israel. This book is a case study in Catholic perceptions of Jews, Judaism, and the state of Israel during a time of rapidly changing theological and cultural contexts. In it, Polyakov listens to and analyzes the stories of individuals living on the border between Christian and Jewish identity, including Jewish converts to Catholicism who continue to harbor a strong sense of Jewish identity and philo-Semitic Catholics who attend synagogue services every Shabbat. Polyakov traces the societal, theological, and personal influences that have given rise to this phenomenon and presents a balanced analysis that addresses the hermeneutical problems of interpreting Jews through Christian frameworks. Ultimately, she argues that despite its problems, this movement signals a pluralistic evolution of Catholic understandings of Judaism and may prove to be a harbinger of future directions in Jewish-Christian relations. Highly original and methodologically sophisticated, *The Nun in the Synagogue* is a captivating exploration of biographical narratives and reflections on faith, conversion, Holocaust trauma, Zionism, and religious identity that lays the groundwork for future research in the field.

**British Dental Journal**, 1914 **Laying Down the Sword** Philip Jenkins, 2011-10-25 One of America's best scholars of religion, *The Economist* examines the Bible's most violent verses and explains how rereading them strengthens faith. Commands to kill, to commit ethnic cleansing, to institutionalize segregation, to hate and fear other races and religions—all are in the Bible and all occur with a far greater frequency than in the Qur'an. But fanaticism is no more hard-wired in Christianity than it is in Islam. Christians cannot engage with neighbors and critics of other traditions nor enjoy the deepest, most mature embodiment of their own faith until they confront the texts of terror in their heritage. Philip Jenkins identifies the holy amnesia that while allowing scriptural religions to grow and adapt has demanded a nearly wholesale suppression of the Bible's most aggressive passages, leaving them dangerously dormant for extremists to revive in times of conflict. Jenkins lays bare the whole Bible without compromise or apology and equips us with tools for reading even the most unsettling texts, from the slaughter of the Canaanites to the alarming rhetoric of the book of Revelation. *Laying Down the Sword* presents a vital framework for understanding both the Bible and the Qur'an, gives Westerners a credible basis for interaction and dialogue with Islam, and delivers a powerful model for how a faith can grow from terror to mercy.
