On Manly Courage Walter T. Schmid, 1992 Walter T. Schmid offers the first original interpretation of the *Laches* since Hermann Bonitz in the nineteenth century in the only full-length commentary on the *Laches* available in English. Schmid divides the book into five main discussions: the historical background of the dialogue; the relation of form and content in a Platonic dialogue; and specific structural and aesthetic features of the *Laches*: the first half of the dialogue which introduces the characters and considers the theme of the education of young men; the inquiry with *Laches* which examines the traditional Greek conception of military courage; and the inquiry with *Nicias* in which two nontraditional conceptions of courage are mooted: one closely associated with the sophistic movement in Athens; the other with Socrates himself. Furnishing a detailed paragraph-by-paragraph reading that traces Socrates' ongoing quest for virtue and wisdom, a wisdom founded in the action of a whole human life, Schmid conclusively shows how and why the *Laches* fills an important niche in Plato's moral theory.

A Study of the Stability of Contemporary Rural Chinese Society Xing Ying, 2014-07-08 This book is the last work of the author's trilogy on Chinese rural politics. In the background of prominent social conflicts since the 1990s during China's social transformation, the author conducted in-depth comparative analyses of several conflicts to understand the changes in goals, driving forces, and operating systems in the Chinese rural group contentions. His analyses also focused on the changes in techniques and strategies of the governments' stability maintenance as well as the complicated social and political consequences brought by these changes. This book applies a very unique perspective: vigor in the Chinese culture to understand contemporary rural contentious politics in an attempt to overcome the problem brought by sense and sensibility and the confrontation between power and morality in the current contentious politics studies. And such a perspective successfully avoids the opposition between the transplanting school and rural school which pushes forward the frontier of research on contentious political theories and rural societies.

Fighting with the Soviets Mark J. Conversino, 1997 Conversino's story is as interesting as it is unfamiliar and succeeds in opening up Frantic's many dimensions, including the personal as well as the political, strategic, and operational. His revelations regarding the interactions
