My Pal, Blaise Richard Leviton,2012-08 In 2020 angels of a high order started incarnating on Earth as humans In early 2020 guards at Teotihuacan an archeological site in Mexico find eight fat handwritten notebooks on a ledge at the Palace of the Jaguars They purport to be the journal and maybe last testament of an American age 69 hiding out in the high desert of New Mexico and on the run from intelligence agencies He sums up his life spent with a most unusual colleague named Blaise The journal entries span seven months in 2019 then end as 2020 begins but they cover the history of the Earth Offered in a matter of fact manner the writer s revelations grow increasingly alarming and hard to credit Wormholes on the Earth Pleiadian influence in human evolution Hyperdimensional Light grids Clairvoyant scientists Shapeshifting Ascended Masters Accounts of planetwide psychic access An apparitional theater of mythic figures Angels 60 billion years old on the verge of human incarnation Yet the journals written with warmth fondness and amusement read like the memoir of truly one man s best friend Blaise yet this Blaise is too big too old too vast to be a human What then And who wrote the journals He seems untraceable In 2023 the notebooks passed to Dartmouth College professor Frederick Graham Atkinson Ph D who starting in 2025 prepared them for publication adding helpful editorial notes The journals though never intended for publication by their author and it s a miracle they survived the desert and years in a dusty unused office Dr Atkinson states offer an unusual often inspiring and mostly astonishing report of the inner affairs of planet culture myth humanity the spiritual world and where it s all heading
