Bailey, Jennifer FitzGerald, 2016-06-19 The disappearance of a Reno couple from Prince William Sound Alaska along with a half eaten dog apparently by killer whales raises suspicion that a certain orca pack called the A T pack led by a particularly sharp and aggressive female the queen may be responsible An exploration geologist and his wife Alaska residents and both interested in orcas carry out investigations in the A T pack s home waters to learn more about their behavior and habits They are joined by a marine biologist orca specialist from southern California A number of people are determined to communicate with the orcas including a psychologist from Canada a rock band from Vancouver BC and music for the orcas via underwater speakers Some kids from Anchorage attempt to communicate with the whales with near fatal consequences Accompany the intelligent orcas as they hunt kill and eat various types of fish and animals They also have fun The three investigators decide to test the interest of the orcas under federal and state supervision in a totally strange food to help determine if they might kill and eat humans Small pigs a human food were decided upon as the best choice for testing orca reaction to strange food animals The test is successful and part of the A T pack is orca led but not for long *The Alaskan Adventure* Franklin W. the Kuskokwin River many years before The Kuskokwin River is the second largest river in Alaska surpassed only by the mighty Yukon River As for Bethel it was over four hundred miles from Anchorage Alaska on the same line of longitude as Honolulu Hawaii By November it could only be reached by airplane weather permitting This is the story of our year in Alaska living in a Quonset hut situated next to the school It is based on a daily journal I kept of our experiences there We had left behind many conveniences such as an automatic washer dryer and dish washer Instead we had accepted a comparatively primitive way of life I cooked on an oil burning stove which also served as a space heater for the front of the Quonset hut Our water had to be delivered by truck Our bathroom had a chemical toilet called a honey bucket which needed to be emptied several times a week Our accommodations were cramped compared to the split level home we had left in Illinois However there were many compensations We soon realized that we were surrounded by many kind and caring people Although we led a simple life in our year in the Alaskan Eskimo village the experience was an enriching one for the entire family This is that story
