# Construction For Profit

**George Hedley**

## **Construction For Profit:**

*Profit First for Contractors* Shawn Van Dyke, 2018-12-03 Construction industry business coach speaker and author Shawn Van Dyke has taken the core concepts of Mike Michalowicz's *Profit First* and customized them to address the specific needs of the construction industry. *Profit First for Contractors* addresses the major struggles contractors face and provides clear and actionable guidance on how to overcome them. Shawn shows contractors how to go from simply getting by to becoming permanently profitable. This book is for every construction business owner who dreams of prosperity. Using Van Dyke's *Profit First for Contractors* system, readers will learn how to break out of the craftsman cycle, the seemingly never-ending loop of urgent tasks and responsibilities that keep contractors from gaining traction toward their important goals. He guides construction business owners how to understand their financial statements and how to use them to determine the markup and margin that lead to profits. You will also learn how to develop solid rules of thumb for the operation of your construction businesses and how to implement an effective cash management plan that simplifies accounting and leverages normal human behavior. Using real-life stories from actual construction business owners, step-by-step advice, and his conversational twang, Van Dyke puts permanent profitability within reach of every construction business owner.

**A Simple Guide to Turning a Profit as a Contractor** Melanie Hodgdon, Leslie C. Shiner, 2009-10 This is the book you should have bought the day you decided you could make more money running a construction company than banging nails for somebody else. It provides you with the answers to those business questions that plague contractors: what am I doing wrong and what's stopping me from making the money that I deserve. You'll meet Mike, a remodeler who thought he owned a business but actually had a low-paying job. Many contractors start out like Mike. This book in a very simple and easy-to-understand way follows Mike as he learns to understand his numbers, adopts new systems, and creates a repeatable process for profit. Every contractor should read this book. It is the first and only book that makes the numbers game easy to understand but more importantly, easy to incorporate into a contractor's business. Bravo! Shawn McCadden, CR, CLC, CAPS, award-winning remodeler, columnist, and nationally recognized remodeling industry specialist. The authors have distilled many of the mysteries of the small business person who can no longer manage the business by quick thinking and fast actions. Mike Gorman, CR, construction industry author and speaker. Contractors love a good story, and that's what they get. All of the basics are covered, including cash flow analysis, distinguishing job costs from overhead expenses, and calculating mark-up. Sal Alfano, Editorial Director, Hanley Wood Business Media. Melanie Hodgdon, Business Systems Management, Inc., and Leslie Shiner, MBA, The Shiner Group, both manage successful consulting and coaching companies. With over 40 years of combined experience, they help contractors better understand and improve business practices and maximize profits. In 2007, they began to work on a series of joint projects that would capitalize on their combined talents. This book is one product of that collaboration.
