Coventry's Blitz:

Coventry's Blitz David McGrory, 2015-08-15 The first book on the blitz that blighted Coventry during the Second World War commemorating its 75th anniversary

Echoes of the Coventry Blitz Gerry van Tonder, 2018-06-30 Smoke rises in the City of Three Spires the smouldering remnant of the Nazi hate Coventry and England will remember and repay From August 1940 Hitlers Luftwaffe mercilessly and indiscriminately bombed cities and towns in Britain The historic West Midlands city of Coventry did not escape the carnage as night after night high explosive and incendiary bombs rained down on the hapless production centre of cars munitions and aero engines Today the iconic shell of Coventry's once majestic medieval cathedral offers a silent memorial of remembrance to that dreadful night For the city's residents of now it is a poignant echo of a violent and destructive part of their history With carefully selected photographs Gerry van Tonder tells the story of Coventry's blitz through a series of ghost photographs where historic wartime images are blended with their modern counterpart to create a fascinating window into Coventry's past Also drawing from contemporary press accounts of the Coventry Blitz this book presents a totally unique comparative insight into the Nazi bombing of Coventry in the Second World War

Risk and Everyday Life John Tulloch, Deborah Lupton, 2003-07-23 *Risk and Everyday Life* examines how people respond to experience and think about risk as part of their everyday lives Bringing together original empirical research and sociocultural theory the authors examine how people define risk and what risks they see as affecting them for example in relation to immigration employment and family life They emphasise the need to take account of the cultural dimensions of risk and risk taking to understand how risk is experienced as part of everyday life and consider the influence that gender social class ethnicity sexual orientation occupation geographical location and nationality have on our perceptions and experience of risk Drawing on the work of key theorists Ulrich Beck Scott Lash and Mary Douglas the authors examine and critique theories of risk in the light of their own research and presents case studies which show how notions of risk interact with day to day concerns

Moonlight Sonata Tim Lewis, 1990-01-01 [Multimodal Epistemologies](#) Arianna Maiorani, Christine Christie, 2014-04-24 This volume develops a new multimodal semiotic approach to the study of communication examining how multimodal discourse is construed transmedially and interculturality and how new technologies and cultural stances inform communicative contexts across the world It contributes to current theoretical debates in the disciplines of semiotics linguistics multimodality and pragmatics as well as those aspects of pedagogy and film studies that engage with the notions of text and narrative by addressing questions such as How do we study multimedia communication How do we incorporate the impact of new media technologies into the study of Linguistics and Semiotics How do we construe culture in modern communication How useful are the current multidisciplinary approaches to multimodal communication Through the analysis of specific case studies that are developed within diverse academic disciplines and which draw on a range of theoretical frameworks the goal of this book is to provide a basis for an overarching

framework that can be applied by scholars and students with different academic and cultural backgrounds Identified versus Statistical Lives I. Glenn Cohen, Norman Daniels, Nir Eyal, 2015-03-09 The identified lives effect describes the fact that people demonstrate a stronger inclination to assist persons and groups identified as at high risk of great harm than those who will or already suffer similar harm but endure unidentified As a result of this effect we allocate resources reactively rather than proactively prioritizing treatment over prevention For example during the August 2010 gold mine cave in in Chile where ten to twenty million dollars was spent by the Chilean government to rescue the 33 miners trapped underground Rather than address the many more cost effective mine safety measures that should have been implemented the Chilean government and international donors concentrated efforts in large scale missions that concerned only the specific group Such bias as illustrated through this incident raises practical and ethical questions that extend to almost every aspect of human life and politics What can social and cognitive sciences teach us about the origin and triggers of the effect Philosophically and ethically is the effect a bias to be eliminated or is it morally justified What implications does the effect have for health care law the environment and other practice domains This volume is the first to take an interdisciplinary approach toward answering this issue of identified versus statistical lives by considering a variety of perspectives from psychology public health law ethics and public policy *The Blitzed City* Karen Farrington, 2015-09-03 The Luftwaffe's targetting and destruction of Coventry city remains the biggest and most destructive air raid on British soil during the Second World War Seen as a centre of British armaments production the German high command wished to inflict terror and panic on the British public a plan that had paid dividends during their relentless conquest of France that year Attacking over two nights in November 1940 they systematically bombed and destroyed the bulk of the city making thousands homeless and killing over 400 men women and children Such was the devastation panic and disorder it wrought that Winston Churchill ordered a news blackout for three weeks in order to quell the unease and morale sapping effect that the raid had But people at the time acted with great bravery to save those trapped in bombed out and burning buildings as well as caring for those badly injured of which there were thousands and fighting the Nazi planes coming in to attack the city itself Now for the very first time we interview those veterans who survived the raid and helped fight the flames and bombs to tell the story of this iconic event Such was the effect it had on the country that when Bomber Command began night time raids against German cities Hamburg Cologne and most famously Dresden the call Remember Coventry went up *New Society*, 1976 **War Culture** Pat Kirkham, David Thoms, 1995 *Aunty Nell's Table* John Kelly, 2018-10-17 On the night of 14th November 1940 the Germans bombed the city of Coventry with a million pounds of high explosives homes were looted children evacuated Coventry was bombed over forty times For the Mansells it was an experience that changed their lives forever The author was a boy in Coventry at the time The book is founded on his experiences and those of his family and friends Most of the stories in the book are true all are typical of peoples experiences **Ludus Coventriae** David Morley, 2002 *Motor Cycling and*
