Challenge Of Complex School Problems:

The Challenge of Complex School Problems ,1990 *The Challenges of School District Leadership* Daniel L.

Duke,2010-07-01 Despite the rising interest in school districts there are relatively few comprehensive resources available for graduate students in educational leadership programs The Challenges of School District Leadership takes the position that the best way to prepare the next generation of school district leaders is to make certain that they are prepared to address the unending challenges that characterize public education today Drawing on the latest research as well as actual examples the book spotlights ten of the perennial challenges facing superintendents and school boards Among the challenges discussed in detail are balancing equity and excellence accommodating demographic change coping with the increasing politicization of district leadership deciding how to organize or reorganize a school system and meeting the demands of educational accountability This text is appropriate for graduate students in educational leadership education policy and the politics of education as well as school district leaders

Complex Problem Solving Beyond the Psychometric Approach Wolfgang Schoppek,Joachim Funke,Magda Osman,Annette Kluge,2018-09-28 Complex problem solving CPS and related topics such as dynamic decision making DDM and complex dynamic control CDC represent multifaceted psychological phenomena In abroad sense CPS encompasses learning decision making and acting in complex and dynamic situations Moreover solutions to problems that people face in such situations are often generated in teams or groups This adds another layer of complexity to the situation itself because of the emerging issues that arise from the social dynamics of group interactions This framing of CPS means that it is not a single construct that can be measured by using a particular type of CPS task e g minimal complex system tests which is a view taken by the psychometric community The proposed approach taken here is that because CPS is multifaceted multiple approaches need to be taken to fully capture and understand what it is and how the different cognitive processes associated with it complement each other Thus this Research Topic is aimed at showcasing the latest work in the fields of CPS as well as DDM and CDC that takes a holist approach to investigating and theorizing about these abilities The collection of articles encompasses conceptual approaches as well as experimental and correlational studies involving established or new tools to examine CPS DDM and CDC This work contributes to answering questions about what strategies and what general knowledge can be transferred from one type of complex and dynamic situation to another what learning conditions result in transferable knowledge and skills and how these features can be trained
