Challenge Of Mater Et Magistra:

The Challenge of Mater Et Magistra Joseph Nestor Moody, Justus George Lawler, 1963 *Confronting the Challenge* Suzanne Mulligan, 2010 This book examines some of the ways in which HIV AIDS is affecting South African society Catholic theological responses have focused extensively on the implications of HIV AIDS for the area of sexual ethics Although there are important questions to be answered here many more fundamental issues have been overlooked as a result This book responds to the need within Catholic theology for a greater examination of the injustices associated with the AIDS pandemic The author argues that the human rights challenges associated with poverty gender discrimination sexual violence and access to essential AIDS related health care are a crucial feature of the crisis The author turns to the social teaching of the Catholic Church for a fuller framework of analysis in this regard and provides a critical examination of that teaching s core concepts and principles The work of leading international economists Amartya Sen and Muhammad Yunus is explored as a means of relating the principles of Catholic social teaching to the concrete social and economic realities that exacerbate this global pandemic *Challenges of Christian Communication and Broadcasting* Dominic Emmanuel, 2016-07-27 The book attempts to establish historically why it became important for Christian Churches in general and the Catholic Church in particular to reconsider their communicative practices It shows how the Churches tried to change their mode of monological communication to adopt a dialogical one including dialogue with non Christian religions The distinctive character of the book lies in showing that such parallel changes in communicative practices were witnessed in philosophical thinking as well as in the field of secular and religious broadcasting **The Papal Encyclicals: 1958-1981** Catholic Church. Pope, Claudia Carlen, 1990 **Challenging the Modern World** Samuel Gregg, 2002-10-01 Moral theologian Samuel Gregg addresses issues surrounding the Pope s personal influence on developments in Catholic social teaching He compares the treatment of industrial relations capitalism and relations between developed and developing countries in John Paul s three social encyclicals with the handling of these three topics in the teachings of the Council and Paul VI arguing that John Paul s critical engagement with the modern world has contributed significantly to Catholic social teaching particular its moral anthropological dimensions Annotation copyrighted by Book News Inc Portland OR [The Challenge of Mater Et Magistra.](#) Edited by Joseph N. property This aspect is only one among many principles in social ethics but continues to be the source of controversy This study examines the degree of continuity in papal teaching on private property between *Rerum Novarum* 1881 and *Laborem Exercens* 1981 and how the pontiffs of this century adapted this principle to new problems and developments The contribution of this volume is the gathering together of the many influences which shaped the teaching of the Magisterium in social ethics in the specific area of property rights These influences include among others the problems facing a pope the drafters and theologians who assisted in the writing of social encyclicals schools of thought which influenced contemporary debates and various objections leveled at this teaching Contents Leo XIII and Private Property Pius XI and Private Property Pius XII and Private P John XXII and Private Property Paul VI and Private Property John Paul II and Private Property and Conclusions
