Challenge Of Teaching Social Studies In The Elementary School:

The Challenge of Teaching Social Studies in the Elementary School: Readings Dorothy J. Skeel, 1972 *The Challenge of Teaching Social Studies in the Elementary School* Dorothy J. Skeel, Ronald E. Sterling, 1979 *Social Studies Through Problem Solving* Maxine Dunfee, Helen L. Sagl, 1966 *Is Social Studies Being Taught in Elementary Schools?* Katie Sorensen, 2006

The purpose of this study was to determine the status of social studies in elementary classrooms in a local school district. Status was determined by assessing the amount of instructional time that was devoted to social studies, its perceived importance in the curriculum, and challenges associated with teaching social studies. Three research questions were identified in order to examine the status of social studies in Apple School District pseudonym 1: To what degree is social studies being taught in the elementary grades one through five? 2. How important is social studies compared to other areas of the curriculum? 3. What do elementary teachers identify to be challenges associated with teaching social studies? Data for this study were gathered through a single distribution of a survey. Teachers of grades one through five from 19 elementary schools participated in this study. Surveys were collected from 351 teachers. Results of this study indicated that social studies was being taught in 98% of the classrooms of teachers surveyed. A post hoc analysis of variance revealed that fifth grade teachers reported teaching social studies significantly more days per week than first, second, and third grade teachers. Results also revealed that fourth grade teachers taught significantly more days per week than second grade teachers. Participants reported their perception that social studies was less important than literacy, math, and science. Participants also identified challenges to teaching social studies. The three most often mentioned challenges were time constraints, lack of resources, and core curriculum issues.

Teaching Elementary Social Studies James Zarrillo, 2004. With diversity as its central theme and encompassing more than 150 classroom activities and strategies, this book will ready prospective teachers to meet challenges in all areas of diversity sensitively and effectively. The author argues that diversity in subject matter, instructional methods, and teaching venues affects social studies instruction as much as diversity in the student populations, and thus is equally important. Includes revised lessons and units now thoroughly standards based. Emphasizes teaching with technology incorporating the use of high quality instructional videos, interactive CD-ROMS, and the Internet World Wide Web. A revised chapter on assessment includes information on standards based assessment. Features material on teaching vocabulary and comprehension. Numerous lessons involving children's literature. Plus an appendix of actual literature. Examples of instructional adaptations for the ESL learners who make up much of the student population, especially in larger school districts, are incorporated into every sample lesson. For elementary Social Studies teachers.
