Challenges To A Secular Society:

Challenges to a Secular Society Whitall N. Perry,1996 **Multi-Secularism** Paul Kurtz,2014-01-10 The contemporary world is witness to an intense controversy about secularism This controversy has intensified due to the presence of fundamentalism which challenges secular society and the secularization of philosophical ideas and ethical values Secularists maintain that the state should not impose a religious creed upon citizens and should respect freedom of conscience the right to believe or disbelieve in the prevailing orthodoxy This right is guaranteed by the First Amendment to the US Constitution and the Rights of Man enunciated in the French Revolution Yet many powerful religious institutions do not accept this principle Paul Kurtz argues that secularism needs to be allied to the emergence of democratic institutions that respect individual freedom and the pluralistic society He argues that a defense of secularism entails a defense of the civic virtues of democracy which include the toleration of dissent and alternative lifestyles and the willingness to negotiate differences Consequently secularism will take different forms in different societies the term multi secularism best describes that Many people believe that it is impossible to maintain a moral order without the support of religion Kurtz vigorously denies that and this volume attempts to explicate the values and principles of secular morality which he sees as the cornerstone of the open democratic society Kurtz was involved in the campaign for secularism throughout his career as a philosopher This book reflects his participation in this battle and extends his thinking to new areas **Muslim Societies and the Challenge of Secularization: An Interdisciplinary Approach** Gabriele Marranci,2010-09-08 Scholars from various disciplines worked together to present the first interdisciplinary book to address the issue of Islam secularism and globalization The book has a clear structure which represents its interdisciplinary approach the first section addresses the philosophical and historical discussion about Islam and secularism the second section discusses the topic from an ethnographical and social anthropological viewpoint and the final section addresses Islam secularism and globalization from a political viewpoint This unique collection not only offers innovative research and new material it also provides empirical examples and theoretical debates and could therefore also be used as a textbook for courses on Islam globalization anthropology politics sociology and law *Challenges Facing Research into Catholic Schools* Sean Whittle,2025-07-17 This book provides practical and theoretical guidance on how to conduct educational research into aspects of Catholic education or in Catholic schools and opens up ways of completing education research in a Catholic setting This book is divided into four sections The first seeks to orientate researchers in Catholic education within the range of contexts issues and challenges that are needed to navigate this field of studies These range from shifts in catholic theology of education to the socio political contexts within which Catholic education takes place The second section presents a range of ways in which Catholic education could be researched by drawing on nine researchers who have completed their doctoral studies within the past decade The third section presents insights from those who have supervised doctoral studies in Catholic Education over the

past two decades Overall this book supports and guides researchers who have no experience of Catholic Christianity and also those who are Catholic but yet remain uncertain about how best to navigate their research in a Catholic setting **The Ethical Challenge of Auschwitz and Hiroshima** Darrell J. Fasching,1993-07-01 This book addresses the problem of religion ethics and public policy in a global technological civilization It attempts to do what narrative ethicists have said cannot be done to construct a cross cultural ethic of human dignity human rights and human liberation which respects the diversity of narrative traditions It seeks to do this without succumbing to either ethical relativism or ethical absolutism The author confronts directly the dominant narrative of our technological civilization the Janus faced myths of Apocalypse or Utopia Through this myth we view technology ambivalently as both the object of our dread and the source of our hope The myth thus renders us ethically impotent the very strength of our literal utopian euphoria sends us careening toward some literal apocalyptic final solution The demonic narrative that dominated Auschwitz killing in order to heal is part of this Janus faced technological mythos that emerged out of Hiroshima And it is this mythic narrative which underlies and structures much of public policy in our nuclear age This book proposes a coalition of members of holy communities and secular groups organized to prevent any future eruptions of the demonic Its goal is to construct a bridge not only over the abyss between religions East and West but also between religious and secular ethics New Challenges for Christians Robin Gill,2011-08-19 Theologians are involved in a wide variety of public committees concerned with ethical issues arising from modern science and are still holding their own against critics such as Richard Dawkins It is important that a wide range of people are aware of how to be responsibly involved in these discussions and to avoid the knee jerk reactions of fundamentalists *Secular Challenge to Communal Politics* P. R. Ram,1998 The Making of a Postsecular Society Massimo Rosati,2016-03-03 Drawing on the thought of Durkheim this volume focuses on societal changes at the symbolic level to develop a new conceptualisation of the emergence of postsecular societies Neo Durkheimian categories are applied to the case of Turkey which in recent years has shifted from a strong Republican and Kemalist view of secularism to a more Anglo Saxon perspective Turkish society thus constitutes an interesting case that blurs modernist distinctions between the secular and the religious and which could be described as postsecular Presenting three symbolic case studies the enduring image of the founder of the Republic Atatürk the contested site of Ayasofia and the remembering and commemoration of the murdered journalist Hrant Dink *The Making of a Postsecular Society* analyses the cultural relationship that the modern Republic has always had with Europe considering the possible implications of the Turkish model of secularism for a specifically European self understanding of modernity Based on a rigorous construction of theoretical categories and on a close scrutiny of the common challenges confronting Europe and its Turkish neighbour long considered other with regard to the accommodation of religious difference this book sheds light on the possibilities for Europe to find new ways of arranging the relationship between the secular and the religious As such it will appeal to scholars of social theory the sociology of
