Challenges To The Humanities By Finn Chester E Jr Ravitch:

Challenges to the Humanities Chester E. Finn (Jr.), Diane Ravitch, P. Holley Roberts, 1985 Reading World Literature Sarah Lawall, 2010-01-01 As teachers and readers expand the canon of world literature to include writers whose voices traditionally have been silenced by the dominant culture fundamental questions arise What do we mean by world What constitutes literature Who should decide Reading World Literature is a cumulative study of the concept and evolving practices of world literature Sarah Lawall opens the book with a substantial introduction to the overall topic Twelve original essays by distinguished specialists run the gamut from close readings of specific texts to problems of translation theory and reader response The sequence of essays develops from re examinations of traditional canonical pieces through explorations of less familiar works to discussions of reading itself as a literacy dependent on worldview Reading World Literature will open challenging new vistas for a wide audience in the humanities from traditionalists to avant garde specialists in literary theory cultural studies and area studies *Routledge Library Editions: Higher Education* Various, 2021-03-29 The volumes in this set originally published between 1964 and 2002 draw together research by leading academics in the area of higher education and provide a rigorous examination of related key issues The volume examines the concepts of learning teaching student experience and administration in relation to the higher education through the areas of business sociology education reforms government educational policy business and religion whilst also exploring the general principles and practices of higher education in various countries This set will be of particular interest to students and practitioners of education politics and sociology *American Education and Corporations* Deron Boyles, 2018-10-09 Originally published in 1998 American Education and Corporations provides a detailed study of the effects of commercialisation on the public school system The book provides a powerful indictment of corporate culture and its influence on American public schooling within a clear theoretical framework The book looks at the threat of corporate culture to public education and advocates an understanding of the democratic importance of schooling as a public good Social Studies Review , 1991 *Clio at the Table* Kenneth K. Wong, Robert Rothman, 2009 This series explores the history of schools and schooling in the United States and other countries The series will examine the historical development of schools and educational processes with special emphasis on issues of educational policy curriculum and pedagogy as well as issues relating to race class gender and ethnicity Special emphasis will be placed on the lessons to be learned from the past for contemporary educational reform and policy Although the series will publish books related to education in the broadest societal and cultural context it especially seeks books on the history of specific schools and on the lives of educational leaders and school founders **Last Chance for Our Children** Bill Honig, 1985 **Schooling Corporate Citizens** Ronald W. Evans, 2014-11-27 Schooling Corporate Citizens examines the full history of accountability reform in the United States from its origins in the 1970s and 1980s to the development of the Common Core in recent years Based in extensive archival research it traces the origins and development of accountability

reform as marked by key government and business led reports from A Nation at Risk to No Child Left Behind and Race to the Top By using the lens of social studies and civic education as a means to understand the concrete impacts of accountability reforms on schools Evans shows how reformers have applied principles of business management to schools in extreme ways damaging civic education and undermining democratic learning The first full length narrative account of accountability reform and its impact on social studies and civic education Schooling Corporate Citizens offers crucial insights to the ongoing process of American school reform shedding light on its dilemmas and possibilities and allowing for thoughtful consideration of future reform efforts The Library Quarterly ,1986 Includes section Reviews **In the Name of Excellence** Thomas Toch,1992 Drawing on a rich store of material that includes visits to nearly sixty public schools nationwide and hundreds of interviews conducted from the classroom to the White House Thomas Toch one of America s leading educational journalists has produced an award winning book of impressive breadth Measuring its progress in clear compelling prose Toch offers readers the full story of today s school reform movement He reveals that there is intense opposition within the ranks of public educators to the movement s academic aims that the damage inflicted on the nation s students by standardized testing is far greater than has been generally reported and that new graduation requirements have failed millions of students Toch also provides a detailed account of the role played by the powerful National Education Association the nation s largest teachers union while shedding new light on controversial topics such as school choice and why students drop out of school Finally and of crucial importance to all who are committed to improving our schools the book proposes a further agenda for the nation s school reformers Public education today stands at a crucial crossroads In the Name of Excellence explains why and reveals the prospects for the nation s schools in the years ahead It is essential reading for parents educators and policymakers alike

An Education in Politics Jesse H. Rhodes,2012-04-21 Since the early 1990s the federal role in education exemplified by the controversial No Child Left Behind Act NCLB has expanded dramatically Yet states and localities have retained a central role in education policy leading to a growing struggle for control over the direction of the nation s schools In An Education in Politics Jesse H Rhodes explains the uneven development of federal involvement in education While supporters of expanded federal involvement enjoyed some success in bringing new ideas to the federal policy agenda Rhodes argues they also encountered stiff resistance from proponents of local control Built atop existing decentralized policies new federal reforms raised difficult questions about which level of government bore ultimate responsibility for improving schools Rhodes s argument focuses on the role played by civil rights activists business leaders and education experts in promoting the reforms that would be enacted with federal policies such as NCLB It also underscores the constraints on federal involvement imposed by existing education policies hostile interest groups and above all the nation s federal system Indeed the federal system which left specific policy formation and implementation to the states and localities repeatedly frustrated efforts to effect changes national reforms lost their force as policies passed through iterations at the state county and municipal levels

Ironically state and local resistance only encouraged civil rights activists business leaders and their political allies to advocate even more stringent reforms that imposed heavier burdens on state and local governments Through it all the nation s education system made only incremental steps toward the goal of providing a quality education for every child

What Do Our 17-year-olds Know? Diane Ravitch,Chester E. Finn (Jr.),1987 A report on the results of a test of 17 year olds knowledge of history and literature in the United States

Handbook for Planning an Effective Literature Program California. State Department of Education,1987

The Great School Debate Beatrice Gross,Ronald Gross,1985 The editors of Radical School Reform offers a timely overview of the status of and controversies issues and trends in American educational systems

Library Journal ,1985 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately

Resources in Education ,1986

Learning from the Past Diane Ravitch,Maris A. Vinovskis,1995-02 The quality of the contributors alone is enough to make this an excellent book It is a valuable compendium and bibliography of recent thinking on the historical context of current discussions of educational reform Robert A McCaughey Barnard College

New Education ,1991

Curriculum and Teaching ,1992

Rhetoric and Ideology Charles W. Kneupper,1989
