Challenging Codependency:

Challenging Codependency Marguerite Babcock, M. Christine McKay, 1995 In the field of addiction research and counselling there has been an increasing investment in the theory of codependency a theory that holds women partly responsible for perpetuating the alcoholism and addiction of their male partners This is the first anthology of feminist essays that presents a cogent critique of this theory The unifying feature of the eighteen essays collected here is the revelation that solid evidence contradicts rather than supports the theory of codependency Its assumptions are found to be unsubstantiated in theory and practice The contributors to the volume explore the history of codependency theory and look at reasons for its growing popularity in medical model politics A central theme emerges that codependency theory is essentially misogynist in nature the result of a male backlash against feminism The collection leaves no doubt that this backlash is effective These essays reveal the many ways that codependency therapy promotes advice and counselling that is damaging and ultimately fails women seeking help for their distress This anthology aimed at professionals as well as readers at large reveals a remarkable body of literature questioning the validity of popular addictions philosophy about women and the quality of the scholarship that supports those theories

Self Help, Inc. Micki McGee, 2005-09-08 Why doesn't self help help Cultural critic Micki McGee puts forward this paradoxical question as she looks at a world where the market for self improvement products is exploding and there seems to be no end in sight Rather than seeing narcissism at the root of the self help craze McGee shows a nation relying on self help culture for advice on how to cope in an increasingly volatile and competitive work world Self Help Inc reveals how makeover culture traps Americans in endless cycles of self invention and overwork as they struggle to stay ahead of a rapidly restructuring economic order

so it is frequently misused or misunderstood. It doesn't refer to simply neediness or attachment issues. Codependency occurs in relationships where one person gives up power to their partner. However, that partner isn't willing or able to fulfill the other's emotional needs in return, so the relationship is off balance. Very often, the person who is given power is an addict, an alcoholic, or abuser. They might be mentally ill and not taking steps to get treatment. However, negative personality traits such as selfishness, immaturity, and irresponsibility can also be present in codependent relationships without addiction or mental illness. In codependent relationships, the person surrendering power enables destructive behavior for the sake of preserving the relationship. If someone has a pattern of codependency, they will continuously choose partners who can't fulfill their needs and drain all their emotional energy. On the other side, a narcissist, addict, abuser, chronically selfish person, or a person who refuses to get help for a mental illness will seek out partners eager to please and make excuses for them. This book covers the following topics: What is codependency? Are you codependent? Are you in a codependent relationship? How to avoid codependent relationships? Ending a codependent relationship? Moving on from a codependent relationship? The symptoms and effects of codependency in your relationship? How to overcome codependency? And much more. It's very hard to find out who is going to suffer from codependency because many factors are responsible for this disorder. However, after doing some research over a few years, doctors have found out that codependency often affects a spouse, parents, siblings, friends, or co-workers of people afflicted with alcohol or drug dependency. Actually, codependency is a term used to describe partners living in a relationship with a person suffering from alcoholism or other kind of addiction. Codependency is also found among the families where a case of chronic disease or mental illness has been found. Today, codependency has broadened to describe any codependent person belonging to any kind of dysfunctional family. Codependent people have a very low self-esteem and they often look for the solution out of their own thinking. These people find it hard to cope with their own identity and emotions and find it hard to be themselves. Some try to get rid of their anxious behaviour through some outward means like alcohol or drugs and become addicted to it. While the others may develop compulsive behaviours like gambling, indiscriminate sexual activity, workaholicism, etc. Buy NOW and your customers will have all they need. **Salem Health** Nancy A. Wise reflections on contemporary sexual politics from a witty feminist hothead. Publisher's description **Resilient Marriages** Karen J. Shirley, 2000. Resilience has come to rival insight as a fundamental therapeutic goal in bettering the lives of individuals in distress. And it is increasingly an important topic in fields as diverse as education, sociology, and family studies. Yet despite all the recent interest, up to now few in-depth studies have appeared. This book is a moving ethnography of five couples whose marriages survived over many

years and ultimately transcended a partner's alcoholism. The couple's stories are poignant, full of wisdom and carrying important lessons. The author's insightful analysis sheds light on three recurring themes: residual resources, moments of choice, and building trust. This book makes a significant contribution to our understanding of what makes relationships last over a course of many years or a lifetime while serving as an engaging supplementary text for courses in family studies, psychology, and sociology.

Discover How to Say No to Your Significant Others Without Losing Their Love. Do you ever feel neglected and used when your efforts aren't acknowledged? You try your best to fix other people's problems with everything you have, whether it's your time, money, or resources, because you've been doing it your whole life and you're used to it. You hardly say no to helping people because if you do, you feel incredibly guilty, and you don't want to lose their love. You're always coming to the rescue, and you sacrifice yourself over and over again. If this sounds like you, then you may just be codependent. Codependency is the need to be needed. It's needing other people to need you. Being needed and valued by your loved ones is essential and healthy, but here's when it can become a problem: when it drives most of your decisions, behaviors, and you're only comfortable in relationships where you feel like the person can't live without you. This is where things start to become unhealthy. If you're someone who will do anything to fix someone else's problem, even if it means putting your health and safety at risk, has a hard time trusting yourself, cannot set boundaries, or are not willing to speak up for your preferences, feels neglected and used when your efforts aren't acknowledged, finds it challenging to identify your wants and needs, needs to be in control all the time, avoids conflict at all costs, even if it means doing things you're not comfortable with, experiences intense moments of loneliness, only feels valued when other people need you, or can't live without you, then Andrei Nedelcu can help you. Something many people don't know is that being codependent is not your fault. The first step to healing and making healthy changes is having insight and understanding, and then using this knowledge to take constructive action. In *Facing and Overcoming Codependency*, here is just a fraction of what you will discover: what exactly codependency is and where it comes from, why being a people pleaser can create several problems in your relationships and how you can stop being one, how to stop saying yes to everything when in fact your heart and mind say no, the ICAR procedure to combat depression, anxiety, anger, and other problems you may be facing from being codependent, how to redefine your mindset with confidence and get back the freedom you deserve, how to stop denying your own needs and feeling ashamed when you dare to think about them, the tools and strategies you need to move towards codependence recovery, and much more. There's a big difference between liking, enjoying, and feeling good when you're needed, but requiring it is a major red flag. Even if you feel uncomfortable or scared to face the issues, codependency brings the key is to start somewhere. In *Facing and Overcoming Codependency*, you will be given specific and practical techniques to help you gradually overcome the problems you're facing. Your happiness and personal needs are just
