## **Challenging The Orthodoxies:**

**Challenging the Orthodoxies** Richard M. Auty, 1996      *Challenging the Orthodoxies* Richard M. Auty, J. F. J. Toye, 1996

This work offers an interdisciplinary critique of the new economic orthodoxy as represented by the Washington Consensus. The originator of the term John Williamson updates his original thesis which is then discussed by an interdisciplinary group of scholars that includes economists environmentalists political scientists institutionalists sociologists and a philosopher. The papers span a range of viewpoints which includes sympathetic modifications to the consensus as well as strong rejections of it. **Taboo**, 2003      Challenging Orthodoxies, Influencing Debates Stephen Devereux, Caroline Knowles, 2006

**Challenging Orthodoxies, Influencing Debates** Stephen Devereux, 2006      *Challenging Orthodoxies: The Social and Cultural Worlds of Early Modern Women* Melinda S. Zook, 2016-04-15 Offering a broad and eclectic approach to the experience and activities of early modern women *Challenging Orthodoxies* presents new research from a group of leading voices in their respective fields. Each essay confronts some received wisdom truth or orthodoxy in social and cultural scientific and intellectual and political and legal traditions to demonstrate how women from a range of social classes could challenge the conventional thinking of their time as well as the ways in which they have been traditionally portrayed by scholars. Subjects include women's relationship to guns and gunpowder the law and legal discourse religion public finances and the new science in early modern Europe as well as women and indentured servitude in the New World. A testament to the pioneering work of Hilda L. Smith this collection makes a valuable contribution to scholarship in women's studies political science history religion and literature. Relearning from Las Vegas Aron Vinegar, Michael J. Golec, 2009 Evaluates for the first time one of the foundational works in architecture criticism. Immediately on its publication in 1972 *Learning from Las Vegas* by Robert Venturi Denise Scott Brown and Steven Izenour was hailed as a transformative work in the history and theory of architecture liberating those in architecture who were trying to find a way out of the straitjacket of architectural orthodoxies. Resonating far beyond the professional and institutional boundaries of the field the book contributed to a thorough rethinking of modernism and was subsequently taken up as an early manifestation and progenitor of postmodernism. **Challenging Orthodoxies** Sol Cohen, 1999 *Challenging Orthodoxies* explores the implications of linguistics literary criticism and language theory in general for historians of education. This book introduces the core ideas of the linguistic turn and some of its major theorists Hayden White Richard Rorty Michel Foucault and Clifford Geertz. By arguing for the primacy of language textuality and linguistic structures in historical narratives this study revises conventional understanding of the writing and interpretation of histories of education. The author reassesses the oeuvre and career of the late Lawrence A. Cremin generally acknowledged as the most important historian of American education of his time. By redescribing progressive education solely as a language system the author transforms our understanding both of the progressive education movement and of its continuing influence on American education. In his exploration of the mental

hygiene movement and the medicalization of American education the author uncovers a new chapter in the history of American education The author breaks new ground in tracking the influence of school reform movements on change in education and provides fresh contexts for discussing present and future prospects for school reform in the United States by defining language and language systems as evidentiary sources and basic units of historical inquiry Challenging Orthodoxies also calls attention to film as a legitimate source for historical research and interpretation of American education and demonstrates that integrating film into the historiography of education is feasible and productive in broadening our understanding both of history and of education
