Challenging Politics Indigenous Peoples Experiences With Political Parties And Elections:

Challenging Politics Kathrin Wessendorf (ed), International Work Group for Indigenous Affairs, 2001 Indigenous peoples all over the world find themselves part of political systems that are not their own but created and defined by governments with alien rules and led by politicians Over the last centuries indigenous peoples have gained experience in dealing with these imposed systems of politics and with hitherto unknown social structures The experiences are very diverse and the reactions to political systems vary This book gives an impression of and some ideas and inspiration on the issue of involvement of indigenous peoples in national politics It may be seen as the beginning of a process that will hopefully lead to further discussion and co operation within the regions but also at an interregional level The book is a compilation of articles initially written for a number of workshops on Indigenous Peoples Experiences with Political Parties and Elections The workshops took place between 1999 2000 in different regions of the world Political Participation of Minorities Marc Weller, Katherine Nobbs, 2010 This Commentary provides the reader with a review of international standards and practice relating to the political participation of minorities Political participation has been increasingly recognized as a foundational issue in the debate about minority rights It is argued that minorities are more likely to feel co ownership in the state if they have the opportunity to participate freely and effectively in all aspects of its governance and that sustained and meaningful engagement will guard against the sense of alienation and exclusion among minorities that often emerges in ethnically divided societies Taking as its starting point the two most important standard setting documents in the field the Lund Recommendations on the Effective Participation of National Minorities in Public Life developed by the Organization for Security and Cooperation in Europe and the Council of Europe s Thematic Commentary on the Issue of Political Participation of Minorities the Commentary locates the international legal entitlement to political participation within the wider context of the right to democratic governance It also considers effective participation in relation to the right to full and effective equality as well as the legal entrenchment of these provisions and implementation mechanisms Individual chapters then consider each of the principal mechanisms aimed at enhancing political participation ranging from procedures covering minority representation in political institutions to consultative mechanisms and autonomy solutions The Commentary draws on a team of experts all of whom are recognized authorities in this specialized area of minority issues **Indigenous Politics** Mikkel Berg-Nordlie, Jo Saglie, Ann Sullivan, 2016-08-19 Over the last fifty years indigenous politics has become an increasingly important field of study Recognition of self determination rights are being demanded by indigenous peoples around the world Indigenous struggles for political representation are shaped by historical and social circumstances particular to their nations but there are nevertheless many shared experiences What are some of the commonalities similarities and differences to indigenous representation participation and mobilisation This anthology offers a comparative perspective on institutional arrangements that provide for varying degrees of indigenous representation including forms of

self organisation as well as government created representation structures A range of comparative and country specific studies provides a wealth of information on institutional arrangements and processes that mobilise indigenous peoples and the ways in which they negotiate alliances and handle conflict

The No-nonsense Guide to Indigenous Peoples Lotte Hughes,2003 Indigenous peoples have long suffered from exoticization Outsiders elevate their beauty remoteness and difference and do not see beyond this to the real problems they face The No Nonsense Guide to Indigenous Peoples looks beyond the exotic images tracing the stories of different indigenous peoples from their first and often fatal contact with explorers and colonizers Much of this history is told here by indigenous people themselves They vividly describe why land and the natural world are so special to them how it feels to be snatched from your family as a child because the government wants to make you white why they are demanding that museums must return the bones of their ancestors how can they retain their traditional culture while moving with the times and what kinds of development are positive This short guide discusses all this and more raising countless issues for debate
