Chance To See Egypt:

The Manners and Customs of the Modern Egyptians Edward William Lane, 1923 *Egypt on the Pentateuch's Ideological Map* Franz V. Greifenhagen, 2003-04-01 This book explores the references to Egypt in the Pentateuch twice as dense as in the rest of the Hebrew Bible in the context of the production of the text's final form during the Persian period. Here as Greifenhagen shows Egypt functions ideologically as the primary other over against which Israel's identity is constructed while its role in Israel's formation appears as subsidiary and as a superseded stage in a master narrative which locates Israel's ethnic roots in Mesopotamia. But the presentation of this powerful neighbour is equivocal: a dominant anti-Egyptian stance coexists with alternative though subordinate pro-Egyptian views suggesting that the Pentateuchal narrative was produced within a context of ideological conflict over attitudes towards a land that provided a home for Jewish fugitives and emigrants.

Reinventing Prosperity Graeme Maxton, Jorgen Randers, 2016-10-08 An important contribution to the global debate about growth, equality, climate change and the path to a viable human future. David Korten, international bestselling author of *When Corporations Rule the World*. The biggest challenges facing human wellbeing today—widening income inequality, continuing global poverty and environmental degradation—may be simple to solve in theory. But because we are required to come up with solutions that are acceptable to a political majority in the rich world, they are much harder to solve in practice. Most of the commonly proposed solutions are simply not acceptable to most people. Many of these proposed solutions, like stopping the use of fossil fuels, require a sacrifice today in order to obtain an uncertain advantage in the far future. Therefore, they are politically infeasible in the modern world, which is marked by relatively short-term thinking. In *Reinventing Prosperity*, Graeme Maxton and Jorgen Randers provide a new approach altogether through thirteen recommendations which are both politically acceptable and which can be implemented in the current period of slow economic growth around the world. *Reinventing Prosperity* solves the forty-year-old growth-no-growth standoff by providing a solution to income inequality, continuing global poverty and climate change: a solution that will provide for economic growth but with a declining ecological footprint. *Reinventing Prosperity* shows us how to live better on our finite planet and in ways we can agree on. An essential guide to those who want to change the world for the better and for certain.

Ha Joon Chang, international bestselling author of *23 Things They Don't Tell You About Capitalism*. A well-argued book explaining complex issues in a style that is clear, logical and succinct. Publishers Weekly.

Judaism, Sufism, and the Pietists of Medieval Egypt Elisha Russ-Fishbane, 2015-07-30 *Judaism, Sufism and the Pietists of Medieval Egypt* addresses the extraordinary rise and inner life of the Egyptian pietist movement in the first half of the thirteenth century. The creative engagement with the dominant Islamic culture was always present even when unspoken. Dr. Russ-Fishbane calls attention to the Sufi subtext of

Jewish pietism while striving not to reduce its spiritual synthesis and religious renewal to a set of political calculations. Ultimately no single term or concept can fully address the creative expression of pietism that so animated Jewish society and that left its mark in numerous manuscripts and fragments from medieval Egypt. Russ Fishbane offers a nuanced examination of the pietist sources on their own terms drawing as far as possible upon their own definitions and perceptions. Jewish society in thirteenth century Egypt reflects the dynamic reexamination by a venerable community of its foundational texts and traditions even of its very identity and institutions viewed and reviewed in the full light of its Islamic environment. The historical legacy of this religious synthesis belongs at once to the realm of Jewish culture in all its diversity and dynamism as well as to the broader spiritual orbit of Islamic civilization.

A Wife Out of Egypt Norma Lorimer, 1915

Byzantium and the Arabs in the Fourth Century Irfan Shahîd, 1984 This book elucidates the birth of the new relationship between the Roman Empire and the Arabs and the rise of its institutional forms. Shahîd discusses the participation of the Arab foederati in Byzantium's wars with her neighbors the Persians and the Goths during which those Arab allies contributed to the welfare of the imperium and the ecclesia.
