The Caves of Northern Thailand Martin Ellis, 2017-11-11 Volume 2 of *The Caves of Thailand* covers the northern provinces of Chiang Mai Chiang Rai Lamphun Mae Hong Son Nan Phayao Phrae Sukhothai and Uttaradit This region has Thailand's deepest caves and many of the longest caves Over 1 150 caves rock shelters stream sinks resurgences and other sites of speleological interest are fully detailed supported by 233 surveys and a bibliography with over 500 references [Spirit Possession in Buddhist Southeast Asia](#) Bénédicte Brac de la Perrière ,Peter A. Jackson, 2022-03-31 In dramatic contrast to the reported growing influence of doctrinal and fundamentalist forms of religion in some parts of Southeast Asia the predominantly Buddhist societies of the region are witnessing an upsurge of spirit possession cults and diverse forms of magical ritual This is found in many social strata including the urban poor rising middle classes and elite groups and across the different political systems of Myanmar Thailand Cambodia and Vietnam This volume reveals both the central historical place of spirit possession rituals in the Buddhist cultures of mainland Southeast Asia and their important contemporary roles to enhance prosperity and protection This book examines the increasing prominence of spirit mediumship and divination across the region by exploring the interplay of neoliberal capitalism visual media the network cultures of the Internet and the politics of cultural heritage and identity It advances beyond critiques of the secularization and disenchantment theses to explore the processes of modernity that are actively producing magical worldviews and stimulating the rise of spirit cults As such it not only challenges the assumptions of modernization theory but demonstrates that the cults in question are novel ritual forms that emerge out of inherently modern conditions **History of Lan Na** Saratsawadī 'Ōngsakun, 2005 *History of Northern Thailand* **Migration, Agrarian Transition, and Rural Change in Southeast Asia** Philip F. Kelly, 2013-10-18 Rural life in Southeast Asia is being transformed by new and intensifying processes of migration and mobility Migration out of rural areas creates new forms of class mobility familial relations production processes and income Migration into rural areas creates a new and sometimes marginalized workforce contestation over resource access and the juxtaposition of culturally different groups At the same time everyday mobility stretches the spatial boundaries of village and family life The bounded space of the village is no longer adequate to understand the dynamics that are driving and resulting from rural social change This collection of original studies explores the cultural economic and environmental dimensions of intensifying migration and mobility in rural Southeast Asia at multiple scales Diverse processes are explored including rural urban flows rural rural movement everyday mobilities and international migrations into regional and global labour markets Drawing on fieldwork in six countries across the region these essays also explore what migration means for our understanding of class citizenship gender and the state in a rapidly changing part of the world This book was based on two parts of a special issue of *Critical Asian Studies* **Fodor's Essential Thailand** Fodor's Travel Guides, 2025-05-27 Whether you want to visit Buddhist temples sample Bangkok's street
