Commissioner Lin and the Opium War Hsin-pao Chang, 1964 **Grounds of Judgment** Par Kristoffer Cassel, 2012-01-11 Perhaps more than anywhere else in the world the nineteenth century encounter between East Asia and the Western world has been narrated as a legal encounter Commercial treaties negotiated by diplomats and focused on trade framed the relationships among Tokugawa Meiji Japan Qing China Choson Korea and Western countries including Britain France and the United States These treaties created a new legal order very different than the colonial relationships that the West forged with other parts of the globe which developed in dialogue with local precedents local understandings of power and local institutions They established the rules by which foreign sojourners worked in East Asia granting them near complete immunity from local laws and jurisdiction The laws of extraterritoriality looked similar on paper but had very different trajectories in different East Asian countries Par Cassel s first book explores extraterritoriality and the ways in which Western power operated in Japan and China from the 1820s to the 1920s In Japan the treaties established in the 1850s were abolished after drastic regime change a decade later and replaced by European style reciprocal agreements by the turn of the century In China extraterritoriality stood for a hundred years with treaties governing nearly one hundred treaty ports extensive Christian missionary activity foreign controlled railroads and mines and other foreign interests and of such complexity that even international lawyers couldn t easily interpret them Extraterritoriality provided the springboard for foreign domination and has left Asia with a legacy of suspicion towards international law and organizations The issue of unequal treaties has had a lasting effect on relations between East Asia and the West Drawing on primary sources in Chinese Japanese Manchu and several European languages Cassel has written the first book to deal with extraterritoriality in Sino Japanese relations before 1895 and the triangular relationship between China Japan and the West **Grounds of Judgment** is a groundbreaking history of Asian engagement with the outside world and within the region with broader applications to understanding international history law and politics

Opium and the Limits of Empire
Opium and the Limits of Empire David Anthony Bello, 2020-03-17 The British opium trade along China s seacoast has come to symbolize China s century long descent into political and social chaos In the standard historical narrative opium is the primary medium through which China encountered the economic social and political institutions of the West Opium however was not a Sino British problem confined to southeastern China It was rather an empire wide crisis and its spread among an ethnically diverse populace created regionally and culturally distinct problems of control for the Qing state This book examines the crisis from the perspective of Qing prohibition efforts The author argues that opium prohibition and not the opium wars was genuinely imperial in scale and is hence much more representative of the actual drug problem faced by Qing administrators The study of prohibition also permits a more comprehensive and accurate observation of the economics and criminology of opium The Qing drug traffic involved the domestic production distribution and consumption of opium A balanced examination of the

opium market and state anti drug policy in terms of prohibition reveals the importance of the empire's landlocked western frontier regions which were the domestic production centers in what has previously been considered an essentially coastal problem

The Sinosphere and Beyond Joan Judge, Joachim Kurtz, Ori Sela, Dan Shao, Hugh Shapiro, 2024-07-22 The history of East Asia can be most productively studied through a transnational translingual and transcultural approach to the region In *The Sinosphere and Beyond* twenty six leading and emerging scholars use such approaches in rich clusters of essays on Historiography Sino Japanese Encounters Law and Justice Politics Art Literature and Translation Each essay builds on the legacy of Joshua Fogel whose scholarship defined the contours of the Sinosphere in the Western world and beyond The collection will be of interest to scholars and students with specific research concerns within these broader rubrics from the towering progenitors of Japanese Sinology to gendered diplomatic and cultural dimensions of Sino Japanese encounters from Sinitic poetry to legal culture and revolutionary life from art commerce and levels of literary expression to the quandaries of translation In addition to offering a broad range of case studies the volume is testimony to the methodological importance of a dynamic intra and transregional approach for an understanding of the layered history of East Asia
