Change And Innovation In Education:

The Change Agent's Guide to Innovation in Education Ronald G. Havelock,1973 Curriculum Change and Innovation Yiu Chun LO 鄧永祥, Shirley S. Y. Yeung 葉秀英, John T. S. Lam 林國輝, Anthony W. L. Leung 梁國輝, 2012-06-01 Curriculum Change and Innovation is an introductory textbook on Hong Kong's school curriculum. Written in an approachable style using illustrative case studies, the textbook provides an introduction to the basic concepts and theories of curriculum as a field of study. It also discusses how sociopolitical and economic changes, as well as technology advancements, help transform teachers' roles and reshape curriculum policies. The chapters cover a wide range of topics, including curriculum design, planning, implementation, and evaluation. These discussions are included to help readers critically reflect on their roles as change agents in curriculum development. Shirley S. Y. Yeung is an assistant professor in the Department of Curriculum and Instruction at the Hong Kong Institute of Education. John T. S. Lam is an assistant professor in the Department of Curriculum and Instruction at the Hong Kong Institute of Education. Anthony W. L. Leung is an assistant professor in the Department of Curriculum and Instruction at the Hong Kong Institute of Education. Yiu Chun Lo is an associate professor of the Department of Curriculum and Instruction at the Hong Kong Institute of Education.

Change and Innovation in Education Jack A. Anderson, J. Wesley Little, 1974-01-01 **Aspects of Educational Change** Ivor Morrish, 2013-05-13 In recent years, teachers have realized that change has become a permanent factor on the educational scene, and therefore its operation or mechanism must not just be accepted or even rejected, but above all understood. This book presents an approach towards some real understanding of educational changes and innovations. A number of mechanisms and processes are discussed and analysed in an attempt to present some sort of overview of the agents involved in change, an analysis of the major characteristics of resisters and innovators, an account of the traits and functions of innovative institutions, and a description of three particular models which delineate the way in which change occurs. In the final section of the text, attention is given to some contemporary educational innovations, and some suggestions are provided for dealing with problems involved in their evaluation.

Technology, Innovation, and Educational Change Susan Brooks-Young, Joke Voogt, 2004 This book highlights the scope and variety of curricular change with educational technology. Research teams from 28 countries in North America, Europe, Asia, South America, and Africa developed 174 case reports of innovative classrooms all over the globe. They used classroom observations, interviews with teachers and principals, and focus groups of students and parents to examine trends and effects. The study highlights innovative uses of technology and identifies environmental criteria that could be used in implementing technology integration strategies.

Stability and Change Sheila Rosenblum,Karen Seashore Louis,2013-03-13 Nearly a century ago Emile Durkheim founded the sociology of education on the French cultural and structural premise that the function of educators is to transmit culture from one generation to the next The clarity of his vision was aided by the era the place and the actors in the learning environment His was an era when the relatively seamless web of western culture although ripping and straining was still intact The place post Napoleonic France was vertically stratified and elaborately structured And the teachers had reason to think they were agents of authority whereas most students during school hours at least behaved as if they were the objects of that authority Underlying the very notion of a sociology of education then was a visible and pervasive aura of a system and order that was culturally prescribed Scholars of American education have yearned for such systems before and since Durkheim Every European and English model has been emulated in a more or less winsome manner from the Boston Latin School of the 1700s to the Open Education programs of the 1960s In the last quarter century of research it has begun to dawn on us however that no matter how hard American educators try they do not build a system

Innovation and Change Jean Rudduck,1991 Argues that we must involve classroom teachers and students in the processes of innovation and change in our schools The book emphasizes the significance of co operative work of who owns new ideas and innovations and the meaning as well as the management of change

Unrelenting Change, Innovation, and Risk Daniel J. Phelan,2016-04-08 Arguably the nation s community colleges have experienced more change in the last several years than they have over the prior 115 years of their existence Rapid changes in technology external pressures for accountability and student completion aggressive competition from other higher education institutions i e public for profit and private changes in enrollment demographics as well as new economic market and operational models stand to completely disrupt this relatively young enterprise Unrelenting Change provides useful practical examples for community college leaders as they seek to thoughtfully and strategically align their organization for the new dynamic in higher education Furthermore

Unrelenting Change offers insights into the change process including institutional assessment and readiness consideration of cultural implications strategic intentions toward innovation as well as risk failure and success Rather than perceiving change and disruptive innovation as merely happenstance or luck the author provides discernment into the topic so as to give community college leaders solid guidance if not improved odds in undertaking this important competitive edge for the future of their intuitions and by extension their students
