Changing Perspective Solomon A. Okang,2026-02-25 What if the greatest shift in your life begins not with changed circumstances but with changed vision In *Changing Perspectives* Pastor Solomon A Okang explores how God reshapes lives by first reshaping the way we see Drawing from Scripture spanning Genesis to the New Testament this book walks readers through stories of creation calling waiting suffering worship and redemption From Joseph s prison to David s praise from prophetic voices to the teachings of Jesus and the transformation of Paul each chapter reveals how perspective determines purpose With pastoral clarity and spiritual depth this book invites readers to move beyond fear confusion and frustration into faith clarity and trust in God s greater plan Whether navigating hardship unanswered prayers or seasons of transition *Changing Perspectives* helps readers recognize God s hand at work even when life feels uncertain This is not simply a call to think differently but an invitation to see life through God s eternal lens

and about 54% of teens said it would be somewhat hard to give up social media Hence further research on the relationship between Internet use and psychological well being among children and adolescents is worth pursuing At the same time a new interest in this area of research is parental technoference which was defined as regular interruptions to real time face to face communications interactions or time spent together among family members because of parental use of technology Technoference has become a common phenomenon in many families with children and evidence has been identified that extended parental time on technological devices e g smartphones could have negative effects on parent child relationships and children s wellbeing For example parental phubbing is regarded as a typical parental technoference and this term is used widely in some countries around the world which has been demonstrated to be detrimental to their children s developmental outcomes and cause various psychological health problems

casework pioneered by the Charity Organization Society COS early social administration including state wide poverty relief an advocacy effort of the COS but with deep roots in the English Poor Laws of the 17th century and social action emphasizing political activities to improve social conditions originating from the Settlement House Movement which began in the 1880s The development of social work is historically intertwined with that of public welfare philanthropy and charity and is an inherently international subject This conception is broader than international social work as a discrete field of professional practice which crosses geopolitical borders and all levels of social and economic organizations with a focus on development However each nation has a story of its own in terms of professionalization of social work in the evolution of public welfare and philanthropic charitable undertaking within its particular economic political social and cultural settings A wide ranging and in depth study of various especially non Western country cases is essential to an adequate comprehensive understanding of the social work profession which is also a basic requirement of its value of diversity China is undoubtedly an important case with the largest population on earth It s also unique in view of so called Chinese characteristics which are sometimes fundamentally different from other particularly Western societies It s even intriguing given the country s lengthy complex history and its recent rapid rise to a global superpower with a claim of national goals and core values that seem to be rather considerable to social work as a helping profession Therefore any significant lessons learned from the Chinese experiences would help with a better international understanding and further advancement of social work and public welfare at a global scale
