**The Science of Opportunity** Howard I. Melamed, 2008-08 Doesn't it seem like some people have all the luck Good things constantly come their way seemingly without any effort on their part The rest of us just shake our heads in disbelief and envy chalking up their good fortune to simply being lucky Don't you believe it There is no such thing as luck Instead there is something more powerful more prevalent and more universal that can bring good things into the lives of not just a lucky few but everyone Opportunity Here's the catch though it's not always obvious when opportunity is knocking at your door But you can learn how to be ready for opportunity when it does come your way and be prepared to capitalize on it by following the principles of The Science of Opportunity The Science of Opportunity gives you a simple blueprint for attracting identifying and acting on opportunities of all kinds in your life Anyone can use these principles regardless of age gender race financial situation political bent
