textbook will be welcomed by professors and students who have been long looking for an appropriate textbook for teaching and studying the changing geography of post reform China Hongmian Gong Hunter College CUNY A wonderful collection of current source data The range of bibliographic material in these pages is great Kit Salter University of Missouri Columbia Changing China A Geographic Appraisal provides an up to date and detailed account of the giant country that is undergoing an unparalleled and historic transition from a centralized command economy to a market based economy and from a rural agricultural society to an urban industrial power Contributions from a distinguished team of geographers both inside and outside of China are divided into three parts that assess respectively economic changes since the reform of 1978 recent social transformations and changes along China s peripheries including Hong Kong Taiwan Xinjiang and inner Mongolia An introductory chapter provides an overview of major themes Includes a chronology of major events in Chinese history and a glossary of Chinese terms

The Changing Geography of Asia Kathleen M. Baker,Graham P. Chapman,2002-03-11

Ranging from the poverty and exploding population of Bangladesh to the dazzling technology and ageing population of Japan from the two most populous states of India and China to the tiny states of Singapore and the Maldives and to the emptiness of Siberia Asia contains the greatest diversity of physical environments cultures and levels of development of any of the continents Clearly illustrated with basic maps of the countries discussed The Changing Geography of Asia presents a systematic review of twenty five years of development covering the physical economic social and political environments of contemporary Asia

China's Changing Map Theodore Shabad,1956

The Geographical Transformation of China Michael

Dunford,Liu Weidong,2014-10-17 The aim of this book is to examine the transformation of the geography of China in the years since the start of China s policy of reform and opening up in 1978 as seen through the eyes of Chinese geographers Throughout that period Chinese geographers have studied these environmental economic political and cultural processes closely drawing on sources that are far from easy to access and have published their results in Chinese Much of this research has underpinned the Chinese government s assessment of policies and the policy choices at different levels yet it is not well known outside of China This volume deals with aspects of the socio economic geography of China s transformation including its changing relations with the rest of the world although it also deals with the impact of China s development path on the country s ecological systems Each chapter deals with aggregate trends and specific cases to show the ways in which the particular characteristics of China s economic and social order economic organization political system and cultural model and values have shaped and are shaped by its geography
