*Changing Our Mind* David P. Gushee, 2017-05-31 Every generation has its hot button issue writes David P Gushee For us it s the LGBT issue In *Changing Our Mind* Gushee takes the reader along his personal and theological journey as he changes his mind about gay lesbian bisexual and transgender inclusion in the Church With 19 books to his name Gushee is no stranger to the public arena He is the author of the Evangelical Declaration Against Torture and drafted the Evangelical Climate Initiative For decades now David Gushee has earned the reputation as America s leading evangelical ethicist In this book he admits that he has been wrong on the LGBT issue writes Brian D McLaren author and theologian In the definitive third edition of this book David Gushee issues a scholarly response to his critics Brian D McLaren says it best Not only is David Gushee s work deep thoughtful and brilliant and not only is David philosophically and theologically careful and astute he is also refreshingly clear and understandable by common people who know neither philosophical nor theological mumbo jumbo

*Changing Our Minds* Naomi Fisher, 2021-02-04 Children are born full of curiosity eager to participate in the world They learn as they live with enthusiasm and joy Then we send them to school We stop them from playing and actively exploring their interests telling them it s more important to sit still and listen The result is that for many children their motivation to learn drops dramatically The joy of the early years is replaced with apathy and anxiety This is not inevitable We are socialised to believe that schooling is synonymous with education but it s only one approach Self directed education puts the child back in control of their learning This enables children including those diagnosed with special educational needs to flourish in their own time and on their own terms It enables us to put wellbeing at the centre of education *Changing Our Minds* brings together research theory and practice on learning It includes interviews with influential thinkers in the field of self directed education and examples from families alongside practical advice This essential guide will give you an understanding of why self directed education makes sense how it works and what to do to put it into action yourself

**Changing Our Minds** Susan Hardy Aiken, Karen Anderson, Myra Dinnerstein, Judy N. Temple, 1988-01-01 What happens when traditionally trained academics begin to reconsider their disciplines in light of recent feminist scholarship This book was written by academics outside Women s Studies programs who have changed their minds about the foundations of their disciplines The authors share a commitment to explore the cultural construction of gender and the gendered construction of culture Each chapter simultaneously examines and exemplifies the transformation of knowledge that resulted from their intensive study of feminist scholarship Taken together they not only demonstrate some of the range variety and intellectual vigor possible in discipline specific reformulations but also participate in the kind of trans disciplinary thinking characteristic of the philosophy of Women s Studies from its inception In the concluding chapter the editors consider how efforts to transform traditional ways of knowing are inflected and infected by the politics of gender within academics
