Changing Society And The Churches Series Just War:

Just War? Charles Reed, 2005 The events of September 11 and the war on terrorism have changed the ways in which we think about war Is the Christian philosophy of just war still relevant to our times How can it be applied to the combined threats of terrorism rogue regimes and weapons of mass destruction If the theory is outdated where will the church find guidance on issues of war and peace Dr Charles Reed explores the two Iraq Wars 1990 2003 in light of just war theory and answers some of those questions He concludes that by altering the theory to fit their own perspectives church leaders consistently missed the opportunity to engage in significant public debate At the same time Reed highlights those leaders who balanced their teachings with the changing international landscape [The Concept of Just War in Judaism, Christianity and Islam](#) Georges Tamer, Katja Thörner, 2021-09-07 For Jews Christians and Muslims as for all human beings military conflicts and war remain part of the reality of the world The authoritative writings of Judaism Christianity and Islam namely the Hebrew Bible the New Testament and the Koran as well as the theological and philosophical traditions based on them bear witness to this fact Showing the influence of different historical political situations various views sometimes quite similar sometimes more divergent have developed in the three religions to justify the waging of war under certain circumstances Such views have also been integrated in different ways into legal systems while in certain cases theologies have provided legitimation for military expansion and atrocities The aim of the volume *The Concept of Just War in Judaism Christianity and Islam* is to explore the respective understanding of just war in each one of these three religions and to make their commonalities and differences discursively visible In addition it highlights and explains the significance of the topic to the present time Can the concepts developed in the Jewish Christian and Islamic traditions in order to justify war serve as a foundation for contemporary peace ethics Or do religious arguments always add fuel to the fire in armed conflict The contributions in this volume will help provide answers to these and other socially and politically relevant questions

Pacifism, Just War, and Tyrannicide David M. Gides, 2012-03-02 Dietrich Bonhoeffer's perplexing and controversial shift from admitted pacifism to tyrannicide has been the source of scholarly and popular inspiration and criticism How could an admitted Christian pacifist be involved in a plot to assassinate a political figure Is there a way to understand and explain this phenomenon comprehensive enough to encompass all relevant data One that takes into account the nuances of Bonhoeffer's theology and all of the elements of his complex historical and personal contexts This study attempts to offer an explanation by linking Bonhoeffer's political thinking and action with his understanding of the church world relationship and by evaluating the changes in that thought action dyad as his life progressed What emerges is a portrait of a bold and visionary thinker and political agent whose church world theology while discontinuous is consistent enough to be authentic and yet flexible enough to meet the extraordinary challenges presented by Nazism and its intrusion into the churches Gides suggests that it is actually Bonhoeffer's malleable church world thinking that ultimately distinguishes him from his theological and

ecclesial contemporaries and even from the mass of German church persons and citizenry it allowed him to confront evil by reaching beyond the constraints of traditional Lutheran thinking *Modern Just War Theory* Michael P.
