Changing The Abusive Parent:

Changing the Abusive Parent Arnold P. Goldstein, Harold Keller, Diane Ern , 1985 **Saving Your Abusive Parent** Makeda Charles , 2020-10-28 Your abusive parent s salvation and eternity matters Tap into your redemptive instincts for dealing with an abusive parent Prayer is a spiritual tool toward the aim of saving your abusive parent You have other spiritual tools at your disposal for getting your abusive parent saved You have what it takes to do what it prayerfully takes for your abusive parent s salvation and restoration Psycho-Legal Concepts for Parenting in Child Custody and Child Protection Vol. 3 Don Tustin, 2024-12-02 This book identifies a number of topics that arise in child protection where assessments of individual families are required The author opines that it is essential to use structured instruments when making assessments on complex topic about risk to reduce bias and to maximise objectivity The author summarises criteria that are required for an assessment instrument to be viewed by scientists as being objective The book proposes that introducing more objective assessment instruments into the field of child protection will improve the focus and brevity of assessment reports and enable setting of thresholds that distinguish between families who provide good enough parenting from families who should be referred for parenting education and from parents who are unfit parents The author identifies a number of topics that commonly arise in cases where maltreatment of children is alleged reviews literature and proposes checklists that can be used to gather data and to form a basis for developing validated assessment instruments for use in child protection The topics identified are relevant both to therapists as parenting practices can be changed using focused therapy and for legal assessment purposes as topics have been shown to be related to legal concerns about the safety and welfare of children The overall aim of this book is to encourage greater use of scientific assessment approaches in the field of child protection *Parent Education and Intervention Handbook* Richard R. Abidin, 1980 *Adult Children of Abusive Parents* Steven Farmer, 1989 A history of a childhood abuse is not a life sentence Here is hope healing and a chance to recover the self lost in childhood Drawing on his extensive work with Adult Children and on his own experience as a survivor of emotional neglect therapist Steven Farmer demonstrates that through exercises and journal work his program can help lead you through grieving your lost childhood to become your own parent and integrate the healing aspects of spiritual physical and emotional recovery into your adult life Copyright Libri GmbH All rights reserved **The Urban & Social Change Review** , 1981 *Public health reports* , 1976 *Health Services Reports* United States. Goldstein,1983 *Changing Urban Education* Clarence Nathan Stone,1998 With critical issues like desegregation and funding facing our schools dissatisfaction with public education has reached a new high Teachers decry inadequate resources while critics claim educators are more concerned with job security than effective teaching Though urban education has reached crisis proportions contending players have difficulty agreeing on a common program of action This book tells why *Changing Urban Education* confronts the prevailing naivete in school reform by examining the factors that shape reinforce or undermine reform efforts Edited by one of the nation s leading urban scholars it examines forces for change and resistance in urban education and proposes that the barrier to reform can only be overcome by understanding how schools fit into the broader political contexts of their cities Much of the problem with our schools lies with the reluctance of educators to recognize the profoundly political character of public education The contributors show how urban political contexts vary widely with factors like racial composition the role of the teachers union and relations between cities and surrounding metropolitan areas Presenting case studies of original field research in Baltimore Chicago Houston and six other urban areas they consider how resistance to desegregation and the concentration of the poor in central urban areas affect education and they suggest how cities can build support for reform through the involvement of business and other community players By demonstrating the complex interrelationship between urban education and politics this book shows schools to be not just places for educating children but also major employers and large spenders of tax dollars It also introduces the concept of civic capacity the ability of educators and non educators to work together on common goals and suggests that this key issue must be addressed before education can be improved *Changing Urban Education* makes it clear to educators that the outcome of reform efforts depends heavily on their political context as it reminds political scientists that education is a major part of the urban mix While its prognosis is not entirely optimistic it sets forth important guidelines that cannot be ignored if our schools are to successfully prepare children for the future
