**Chaos, Creativity, and Cosmic Consciousness** Rupert Sheldrake, Terence McKenna, Ralph Abraham, 2001-11-01 Three of the most original thinkers of our time explore issues that call into question our current views of reality morality and the nature of life A wide ranging investigation of the ecology of inner and outer space the role of chaos theory in the dynamics of human creation and the rediscovery of traditional wisdom In this book of dialogues the late psychedelic visionary and shamanologist Terence McKenna acclaimed biologist and originator of the morphogenetic fields theory Rupert Sheldrake and mathematician and chaos theory scientist Ralph Abraham explore the relationships between chaos and creativity and their connection to cosmic consciousness Their observations call into question our current views of reality morality and the nature of life in the universe The authors challenge the reader to the deepest levels of thought with wide ranging investigations of the ecology of inner and outer space the role of chaos in the dynamics of human creation and the resacralization of the world Among the provocative questions the authors raise are Is Armageddon a self fulfilling prophecy Are we humans the imaginers or the imagined Are the eternal laws of nature still evolving What is the connection between physical light and the light of consciousness Part ceremony part old fashioned intellectual discussion these dialogues are an invitation to a new understanding of what Jean Houston calls the dreamscapes of our everyday waking life *Strange Attractor* Graham St John, 2005-10-07 An intellectual biography of one of the most celebrated and yet least understood figures of the late twentieth century Terence McKenna A stand up philosopher who made a unique contribution to science humanism and the hidden arts Terence McKenna 1946 2000 was the twentieth century s psychedelic Renaissance man Perfecting his rugged philosophy on the role of psychedelics in evolution consciousness and time McKenna was a riotous charmer who stalked the shadows but also sought the iridescence More than twenty years since his untimely passing McKenna has an enduring magnetism across the virtual pop stream in pervasive digitization and within social media networks In *Strange Attractor* the first biography of this enigmatic figure Graham St John detects the signal behind the noise This book is an engaging chronicle of the life works and legacy of this brazen adventurer of the inner and outer dimensions whose weird intelligence has affected multitudes and whose spirit continues to haunt the present It draws on original documents and letters features fifty two rare photographs and artworks and shares previously untold stories from over eighty people Neither glorifying nor disparaging its subject *Strange Attractor* will appeal to those interested in the evolution of a psychedelic intellectual and to those for whom McKenna s wisdom endures *Suddenly Psychic* Maureen Caudill, 2006-11-03 As she bent a metal spoon with her mind computer scientist Maureen Caudill knew she was witnessing a total violation of the laws of physics and that her understanding of reality would never be the same Letting go of the ultra rational skeptical perspective she had maintained over a twenty year scientific career Caudill joined the 50% of Americans who report having had psychic experiences National Science Foundation 2000 and began a firsthand exploration of phenomena like clairvoyance remote viewing out of body

experiences channeling and mediumship In Suddenly Psychic she shares her new conviction that paranormal abilities are a normal part of human consciousness and anyone can learn them using her scientific background to validate and explain her experiences Combining vivid descriptions of altered states of consciousness with an in depth look at cutting edge scientific theories that are consistent with these phenomena Suddenly Psychic is a reader friendly bridge between the mysteries of the mind and hard science that speaks to skeptics and believers alike Caudill s compelling journey offers convincing evidence for the legitimacy of psychic phenomena and will inspire you to see for yourself what s possible **Atlantis Rising 103 - January/February 2014** J.
